FORM 10-Q

ANSYS INC - ANSS

Filed: May 01, 2014 (period: March 31, 2014)

Quarterly report with a continuing view of a company's financial position

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 0-20853

ANSYS, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

04-3219960

(I.R.S. Employer Identification No.)

275 Technology Drive, Canonsburg, PA

(Address of principal executive offices)

15317

(Zip Code)

724-746-3304

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by a check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company (as defined in Exchange Act Rule 12b-2). (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares of the Registrant's Common Stock, par value \$.01 per share, outstanding as of April 25, 2014 was 92,662,931 shares.

ANSYS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2014
(Unaudited)

1. Organization

ANSYS, Inc. (hereafter the "Company" or "ANSYS") develops and globally markets engineering simulation software and technologies widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace, automotive, manufacturing, electronics, biomedical, energy and defense.

As defined by the accounting guidance, the Company operates as two segments. However, the Company determined that its two operating segments are sufficiently similar and should be aggregated under the criteria provided in the related accounting guidance.

Given the integrated approach to the multi-discipline problem-solving needs of the Company's customers, a single sale of software may contain components from multiple product areas and include combined technologies. The Company also has a multi-year product and integration strategy that will result in new, combined products or changes to or discontinuation of the historical product offerings. As a result, it is impracticable for the Company to provide accurate historical or current reporting among its various product lines.

2. Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by ANSYS in accordance with accounting principles generally accepted in the United States for interim financial information for commercial and industrial companies and the instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the accompanying statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements (and notes thereto) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The condensed consolidated December 31, 2013 balance sheet presented is derived from the audited December 31, 2013 balance sheet included in the most recent Annual Report on Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included, and all adjustments are of a normal and recurring nature. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for any future period.

The noncontrolling interest position of an acquired subsidiary is reported as a separate component of consolidated equity from the equity attributable to ANSYS stockholders as of March 31, 2014. The noncontrolling interest in the Company's net income was not significant to the consolidated results for the period presented and therefore has been included as a component of other expense, net in the condensed consolidated statements of income.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of highly liquid investments such as deposits held at major banks and money market mutual funds. Cash equivalents are carried at cost, which approximates fair value. The Company's cash and cash equivalent balances comprise the following:

<i>(in thousands, except percentages)</i>	March 31, 2014		December 31, 2013	
	Amount	% of Total	Amount	% of Total
Cash accounts	\$ 472,734	55.1	\$ 439,348	59.2
Money market mutual funds	384,950	44.9	303,138	40.8
Total	\$ 857,684		\$ 742,486	

The Company held 100% and 99% of its money market mutual fund balances in various funds of a single issuer as of March 31, 2014 and December 31, 2013, respectively.

3. Acquisitions

SpaceClaim Corporation

On April 30, 2014, the Company completed the acquisition of SpaceClaim Corporation ("SpaceClaim"), a leading provider of 3D modeling technology. Under the terms of the agreement, ANSYS acquired SpaceClaim for a purchase price of \$85.0 million in cash, plus retention vehicles and an adjustment for working capital. The operating results of SpaceClaim will be included in the Company's consolidated financial statements from the date of acquisition and, accordingly, SpaceClaim's operating results are not included in the financial results presented in this Quarterly Report on Form 10-Q.

Reaction Design

On January 3, 2014, the Company completed the acquisition of Reaction Design, a leading developer of chemistry simulation software. Under the terms of the agreement, ANSYS acquired Reaction Design for a purchase price of \$19.1 million in cash. Reaction Design's solutions enable transportation manufacturers and energy companies to rapidly achieve their clean technology goals by automating the analysis of chemical processes via computer simulation and modeling solutions.

The operating results of Reaction Design have been included in the Company's condensed consolidated financial statements since the date of acquisition, January 3, 2014. The total consideration transferred was allocated to the assets and liabilities of Reaction Design based on management's estimates of the fair values of the assets acquired and the liabilities assumed. The allocation included \$9.2 million to identifiable intangible assets including core technology, customer lists and trade names, to be amortized over a period of two to eleven years, and \$7.3 million to goodwill, which is not tax deductible. The fair values of the assets acquired and liabilities assumed are based on preliminary calculations and the estimates and assumptions for these items are subject to change as additional information about what was known and knowable at the acquisition date is obtained during the measurement period (up to one year from the acquisition date). The operating results of Reaction Design are not material to the condensed consolidated financial statements.

In valuing deferred revenue on the Reaction Design balance sheet as of the acquisition date, the Company applied the fair value provisions applicable to the accounting for business combinations. Although this acquisition accounting requirement had no impact on the Company's business or cash flow, the Company's reported revenue under accounting principles generally accepted in the United States, primarily for the first 12 months post-acquisition, is less than the sum of what would otherwise have been reported by Reaction Design and ANSYS absent the acquisition. Acquired deferred revenue with a historical carrying value of \$2.3 million was ascribed no fair value on the opening balance sheet. The impact on reported revenue for the quarter ended March 31, 2014 was \$0.8 million. The expected impact on reported revenue is \$0.5 million and \$2.0 million for the quarter ending June 30, 2014 and for the year ending December 31, 2014, respectively.

EVEN - Evolutionary Engineering AG

On April 2, 2013, the Company acquired EVEN - Evolutionary Engineering AG ("EVEN"), a leading provider of composite analysis and optimization technology. Under the terms of the agreement, ANSYS acquired 100% of EVEN for a purchase price of \$8.1 million, which consisted of \$4.5 million in cash and an estimated \$3.6 million of contingent consideration based on EVEN's achievement of certain technical milestones during the three years following the acquisition date. The Company made its first contingent payment totaling \$1.6 million in March 2014.

The total consideration transferred was allocated to the assets and liabilities of EVEN based on management's estimates of the fair values of the assets acquired and the liabilities assumed. The allocation included \$2.6 million to identifiable intangible assets including customer lists and core technology, to be amortized over a period of five years, and \$5.9 million to goodwill, which is not tax deductible. The fair values of the assets acquired and liabilities assumed are based on management's estimates of their fair value as of the acquisition date.

4. Other Receivables and Current Assets

The Company's other receivables and current assets comprise the following balances:

<i>(in thousands)</i>	March 31, 2014	December 31, 2013
Receivables for unrecognized revenue	\$ 132,259	\$ 140,051
Income taxes receivable, including overpayments and refunds	17,224	42,357
Prepaid expenses and other current assets	19,650	18,326
Total other receivables and current assets	<u>\$ 169,133</u>	<u>\$ 200,734</u>

Receivables for unrecognized revenue represent the current portion of annual lease licenses and software maintenance that has not yet been recognized as revenue.

5. Earnings Per Share

Basic earnings per share ("EPS") amounts are computed by dividing earnings by the weighted average number of common shares outstanding during the period. Diluted EPS amounts assume the issuance of common stock for all potentially dilutive equivalents outstanding. To the extent stock options are anti-dilutive, they are excluded from the calculation of diluted EPS.

The details of basic and diluted EPS are as follows:

<i>(in thousands, except per share data)</i>	Three Months Ended	
	March 31, 2014	March 31, 2013
Net income	\$ 56,542	\$ 51,023
Weighted average shares outstanding – basic	92,483	92,908
Dilutive effect of stock plans	2,466	2,258
Weighted average shares outstanding – diluted	94,949	95,166
Basic earnings per share	\$ 0.61	\$ 0.55
Diluted earnings per share	\$ 0.60	\$ 0.54
Anti-dilutive options	1,205	1,118

6. Goodwill and Intangible Assets

The Company's intangible assets and estimated useful lives are classified as follows:

<i>(dollars in thousands)</i>	March 31, 2014		December 31, 2013	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangible assets:				
Developed software and core technologies (5 – 11 years)	\$ 308,848	\$ (209,353)	\$ 300,493	\$ (203,236)
Customer lists and contract backlog (3 – 15 years)	238,156	(124,661)	237,173	(119,368)
Trade names (2 – 10 years)	113,674	(54,018)	102,651	(50,990)
Total	<u>\$ 660,678</u>	<u>\$ (388,032)</u>	<u>\$ 640,317</u>	<u>\$ (373,594)</u>
Unamortized intangible assets:				
Trade names	<u>\$ 14,157</u>		<u>\$ 24,667</u>	

Amortization expense for the intangible assets reflected above was \$14.1 million and \$15.8 million for the three months ended March 31, 2014 and 2013, respectively.

[Table of Contents](#)

As of March 31, 2014, estimated future amortization expense for the intangible assets reflected above is as follows:

(in thousands)

Remainder of 2014	\$	41,417
2015		52,848
2016		46,103
2017		42,371
2018		28,524
2019		14,844
Thereafter		46,539
Total intangible assets subject to amortization		272,646
Indefinite-lived trade names		14,157
Other intangible assets, net	\$	286,803

The changes in goodwill during the three months ended March 31, 2014 and 2013 were as follows:

(in thousands)

	2014	2013
Beginning balance – January 1	\$ 1,255,704	\$ 1,251,247
Acquisition of Reaction Design	7,254	—
Currency translation and other	7	(1,209)
Ending balance – March 31	\$ 1,262,965	\$ 1,250,038

During the first quarter of 2014, the Company completed the annual impairment test for goodwill and indefinite-lived intangible assets and determined that these assets had not been impaired as of the test date, January 1, 2014. No events or circumstances changed during the three months ended March 31, 2014 that would indicate that the fair values of the Company's reporting units or indefinite-lived intangible assets are below their carrying amounts.

7. Fair Value Measurement

The valuation hierarchy for disclosure of assets and liabilities reported at fair value prioritizes the inputs for such valuations into three broad levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; or
- Level 3: unobservable inputs based on the Company's own assumptions used to measure assets and liabilities at fair value.

A financial asset's or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

[Table of Contents](#)

The following tables provide the assets and liabilities carried at fair value and measured on a recurring basis:

<i>(in thousands)</i>	March 31, 2014	Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Cash equivalents	\$ 384,950	\$ 384,950	\$ —	\$ —
Short-term investments	\$ 559	\$ —	\$ 559	\$ —
Liabilities				
Contingent consideration	\$ (5,975)	\$ —	\$ —	\$ (5,975)
Deferred compensation	\$ (707)	\$ —	\$ —	\$ (707)

<i>(in thousands)</i>	December 31, 2013	Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Cash equivalents	\$ 303,138	\$ 303,138	\$ —	\$ —
Short-term investments	\$ 500	\$ —	\$ 500	\$ —
Liabilities				
Contingent consideration	\$ (7,389)	\$ —	\$ —	\$ (7,389)
Deferred compensation	\$ (704)	\$ —	\$ —	\$ (704)

The cash equivalents in the preceding tables represent money market mutual funds.

The short-term investments in the preceding tables represent deposits held by certain foreign subsidiaries of the Company. The deposits have fixed interest rates with maturity dates ranging from three months to one year.

The contingent consideration in the table above represents potential future payments related to the EVEN and Apache Design, Inc. ("Apache") acquisitions in accordance with the respective merger agreements. The deferred compensation in the table above is attributable to a retention agreement for a key member of Apache management, and was accounted for outside of that business combination. The net present value calculations for the contingent consideration and deferred compensation include significant unobservable inputs in the assumption that all remaining payments will be made, and therefore the liabilities were classified as Level 3 in the fair value hierarchy.

The following tables present the changes in the Company's Level 3 liabilities that are measured at fair value on a recurring basis during the three months ended March 31, 2014 and 2013:

<i>(in thousands)</i>	Fair Value Measurement Using Significant Unobservable Inputs	
	Contingent Consideration	Deferred Compensation
Balance as of January 1, 2014	\$ 7,389	\$ 704
Contingent payment	(1,578)	—
Interest expense and foreign exchange activity included in earnings	164	3
Balance as of March 31, 2014	\$ 5,975	\$ 707

<i>(in thousands)</i>	Fair Value Measurement Using Significant Unobservable Inputs	
	Contingent Consideration	Deferred Compensation
Balance as of January 1, 2013	\$ 6,436	\$ 1,394
Interest expense included in earnings	31	6
Balance as of March 31, 2013	\$ 6,467	\$ 1,400

[Table of Contents](#)

The carrying values of cash, accounts receivable, accounts payable, accrued expenses, other accrued liabilities and short-term obligations approximate their fair values because of their short-term nature.

8. Geographic Information

Revenue to external customers is attributed to individual countries based upon the location of the customer. Revenue by geographic area is as follows:

<i>(in thousands)</i>	Three Months Ended	
	March 31, 2014	March 31, 2013
United States	\$ 73,380	\$ 67,068
Japan	28,930	28,615

9. Stock-based Compensation

Total stock-based compensation expense and its net impact on basic and diluted earnings per share are as follows:

	Three Months Ended	
	March 31, 2014	March 31, 2013
<i>(in thousands, except per share data)</i>		
Cost of sales:		
Software licenses	\$ 301	\$ 343
Maintenance and service	491	584
Operating expenses:		
Selling, general and administrative	3,477	4,196
Research and development	3,196	3,664
Stock-based compensation expense before taxes	7,465	8,787
Related income tax benefits	(2,056)	(3,396)
Stock-based compensation expense, net of taxes	\$ 5,409	\$ 5,391
Net impact on earnings per share		
Basic earnings per share	\$ (0.06)	\$ (0.06)
Diluted earnings per share	\$ (0.06)	\$ (0.06)

10. Contingencies and Commitments

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including alleged infringement of intellectual property rights, commercial disputes, labor and employment matters, tax audits and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material, adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could materially affect the Company's results of operations, cash flows or financial position.

An Indian subsidiary of the Company received a formal inquiry after a service tax audit. The service tax issues raised in the Company's notice are very similar to the case, *M/s Microsoft Corporation (I) (P) Ltd. Vs Commissions of Service Tax*, currently being appealed to the Delhi Customs, Excise and Service Tax Appellate Tribunal (CESTAT). If the ruling is in favor of Microsoft, the Company expects a similar outcome for its audit case. If the ruling is unfavorable in the case of Microsoft, the Company could incur tax charges and related liabilities, including those related to the service tax audit case, of approximately \$6 million. Of the two judicial members assigned to the Microsoft appeal, one member has ruled in favor of Microsoft and one has ruled in favor of the Commission. A third deciding judge will be appointed for a final decision. The Company can provide no assurances as to the outcome of the Microsoft appeal or to the impact of the Microsoft appeal on the Company's audit case. The Company is uncertain as to when the service tax audit will be completed.

The Company sells software licenses and services to its customers under proprietary software license agreements. Each license agreement contains the relevant terms of the contractual arrangement with the customer, and generally includes certain provisions for indemnifying the customer against losses, expenses and liabilities from damages that are incurred by or awarded against the customer in the event the Company's software or services are found to infringe upon a patent, copyright or other proprietary right of a third party. To date, the Company has not had to reimburse any of its customers for any losses related to these indemnification provisions and no material claims asserted under these indemnification provisions are outstanding as of March 31, 2014. For several reasons, including the lack of prior material indemnification claims, the Company cannot determine the maximum amount of potential future payments, if any, related to such indemnification provisions.

11. Sale-Leaseback Arrangement

On September 14, 2012, the Company entered into a lease agreement for 186,000 square feet of rentable space to be located in a to-be-built office facility in Canonsburg, Pennsylvania, which will serve as the Company's new headquarters. The lease was effective as of September 14, 2012, but because the leased premises are under construction, the Company will not be obligated to pay rent until the later of (i) three months following the date that the leased premises are delivered to ANSYS, which delivery, subject to certain limited exceptions, shall occur no later than October 1, 2014, or (ii) January 1, 2015. The term of the lease is 183 months, beginning on the date the Company takes possession of the facility. The lease agreement terms provide that the Company is responsible for paying the cost of certain tenant improvements that exceed an allowance to be paid by the landlord. There is no cap to the Company's obligation in excess of the landlord allowance, and the improvements do not meet the definition of "normal tenant improvements" as defined in the accounting guidance. As a result, the Company is considered the owner of the building during the construction period and the lease is subject to sale-leaseback treatment.

As of March 31, 2014, the Company has recorded a \$23.7 million construction-in-progress asset and a corresponding liability for construction debt funded by the lessor on its condensed consolidated balance sheet. Upon completion and delivery of the building, the Company will determine whether the lease meets the criteria for capital treatment under the accounting guidance, or whether it has continuing involvement in the lease. If it is determined the lease fails to meet the capitalization criteria, and the Company does not have continuing involvement in the lease, the construction-in-progress asset and liability will be removed from the condensed consolidated balance sheet. The sale-leaseback treatment of the lease during the construction period does not have any impact on the Company's results of operations or cash flows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
ANSYS, Inc.
Canonsburg, Pennsylvania

We have reviewed the accompanying condensed consolidated balance sheet of ANSYS, Inc. and subsidiaries (the "Company") as of March 31, 2014, and the related condensed consolidated statements of income, comprehensive income, and cash flows for the three-month periods ended March 31, 2014, and 2013. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of ANSYS, Inc. and subsidiaries as of December 31, 2013, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 27, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2013 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Pittsburgh, Pennsylvania
May 1, 2014

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview:

ANSYS, Inc.'s results for the three months ended March 31, 2014 reflect growth in revenues of 8.9%, operating income of 13.7% and diluted earnings per share of 11.1% as compared to the three months ended March 31, 2013. The Company experienced higher revenues in 2014 from growth in both license and maintenance revenue. The increase in revenues was partially offset by increased operating expenses, including higher salaries and incentive compensation.

The Company's non-GAAP results for the three months ended March 31, 2014 reflect increases in revenue of 8.5%, operating income of 6.3% and diluted earnings per share of 7.0% as compared to the three months ended March 31, 2013. The non-GAAP results exclude the income statement effects of acquisition accounting adjustments to deferred revenue, stock-based compensation, acquisition-related amortization of intangible assets and transaction costs related to business combinations. For further disclosure regarding non-GAAP results, see the section titled "Non-GAAP Results" immediately preceding the section titled "Liquidity and Capital Resources".

The Company's financial position includes \$858.2 million in cash and short-term investments, and working capital of \$690.5 million as of March 31, 2014.

On April 30, 2014, the Company completed the acquisition of SpaceClaim, a leading provider of 3D modeling technology. Under the terms of the agreement, ANSYS acquired SpaceClaim for a purchase price of \$85.0 million in cash, plus retention vehicles and an adjustment for working capital. The operating results of SpaceClaim will be included in the Company's consolidated financial statements from the date of acquisition and, accordingly, SpaceClaim's operating results are not included in the financial results presented in this Quarterly Report on Form 10-Q.

In February 2014, the Company received a \$26.8 million refund related to its 2009 and 2010 federal income tax returns. The Joint Committee on Taxation reviewed these returns in 2013 and took no exception.

On January 3, 2014, the Company completed the acquisition of Reaction Design, a leading developer of chemistry simulation software. Under the terms of the agreement, ANSYS acquired Reaction Design for a purchase price of \$19.1 million in cash. Reaction Design's solutions enable transportation manufacturers and energy companies to rapidly achieve their clean technology goals by automating the analysis of chemical processes via computer simulation and modeling solutions.

ANSYS develops and globally markets engineering simulation software and services widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace, automotive, manufacturing, electronics, biomedical, energy and defense. Headquartered south of Pittsburgh, Pennsylvania, the Company and its subsidiaries employed approximately 2,640 people as of March 31, 2014 and focus on the development of open and flexible solutions that enable users to analyze designs directly on the desktop, providing a common platform for fast, efficient and cost-conscious product development, from design concept to final-stage testing and validation. The Company distributes its suite of simulation technologies through a global network of independent channel partners and direct sales offices in strategic, global locations. It is the Company's intention to continue to maintain this hybrid sales and distribution model.

The Company licenses its technology to businesses, educational institutions and governmental agencies. Growth in the Company's revenue is affected by the strength of global economies, general business conditions, currency exchange rate fluctuations, customer budgetary constraints and the competitive position of the Company's products. The Company believes that the features, functionality and integrated multiphysics capabilities of its software products are as strong as they have ever been. However, the software business is generally characterized by long sales cycles. These long sales cycles increase the difficulty of predicting sales for any particular quarter. The Company makes many operational and strategic decisions based upon short- and long-term sales forecasts that are impacted not only by these long sales cycles but by current global economic conditions. As a result, the Company believes that its overall performance is best measured by fiscal year results rather than by quarterly results.

The Company's management considers the competition and price pressure that it faces in the short- and long-term by focusing on expanding the breadth, depth, ease of use and quality of the technologies, features, functionality and integrated multiphysics capabilities of its software products as compared to its competitors; investing in research and development to develop new and innovative products and increase the capabilities of its existing products; supplying new products and services; focusing on customer needs, training, consulting and support; and enhancing its distribution channels. From time to time, the Company also considers acquisitions to supplement its global engineering talent, product offerings and distribution channels.

Geographic Trends:

In North America, the Company continued to see the industrial area growing, including large power generation equipment, aircraft engines, oil and gas industry equipment and turbochargers for automotive. Growth in high-performance and cloud computing are driving expansion at the Company's major high-tech customers. While cautious customer sentiment is still being experienced in other segments, such as government spending, the Company reported 9% revenue growth in North

America. The sales pipelines and customer engagement activities in North America are building as the Company sees innovation and competitive pressures continuing to drive simulation investments.

Europe on the whole delivered 8% revenue growth in constant currency and 12% in reported currency for the first quarter of 2014 as compared to the first quarter of 2013. The Company experienced growth in the industrial equipment area in Europe, particularly in Germany, where automotive was also strong. Wireless companies in Europe continue to invest in ANSYS products to develop next generation technologies to improve vehicle safety. Metal, chemical and process equipment segments grew across most European regions, using ANSYS fluids products to help meet energy efficiency and emission control requirements. The revenue growth in Europe was, however, muted by lower than planned new business performance in the indirect channel. This was most prominent in Russia and Turkey where a combination of geopolitical and currency issues, respectively, negatively impacted first quarter sales, particularly as those issues became more severe late in the quarter. Unlike the first quarter of 2013 and each successive quarter in 2013, the volatile nature of the situation in Russia, Ukraine, the Crimea and the Commonwealth of Independent States, together with the resulting sanctions imposed against Russia, has negatively impacted the Company's business in the first quarter of 2014, and is currently forecasted to slow sales growth in Europe until the related sanctions are clarified and the associated geopolitical tensions are resolved. Given the uncertainty regarding the timing of the resolution of these matters, there could be a material, adverse impact on the Company's financial position, results of operations and cash flows in future periods. The adverse impacts in this region were partially offset by improved sales performance in Benelux, Italy and Spain. The overall renewal rates continued to be strong and were in line with those of the first quarter of 2013.

The Company's General International Area ("GIA"), which includes all geographies other than North America and Europe, showed a promising start to the year, with constant currency revenue growth of 12% for the quarter. Particularly notable was the 13% constant currency revenue growth in Japan and continued growth in South Korea, influenced by the adoption of smart electronics in the consumer electronics multinationals in those countries. The Company is seeing increased interest and investment in high-performance computing across its customer base to accelerate workflows, compress product development processes and enable complex systems engineering simulation and optimization. The overall GIA growth was partially offset by weaker performance in India and China due to reductions/delays in government spending. During the quarter, the Company continued to focus on a combination of sales improvement initiatives, and sales and technical support hiring in those marketplaces where the Company saw the greatest opportunity for growth in 2014 and beyond. The sales teams are focused on finding new and complementary ways to better address the market opportunities in their local geographies and to increase overall sales productivity. These ongoing sales improvement efforts are beginning to translate into top line results and the Company believes that the changes that have been made in the region, coupled with a continued focus on execution, should continue to produce improvement in sales in this region throughout 2014.

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and notes thereto for the three months ended March 31, 2014, and with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2013 filed on the Annual Report on Form 10-K with the Securities and Exchange Commission. The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to fair value of stock awards, bad debts, contract revenue, valuation of goodwill, valuation of intangible assets, contingent consideration, deferred compensation, income taxes, uncertain tax positions, tax valuation reserves, useful lives for depreciation and amortization, and contingencies and litigation. The Company bases its estimates on historical experience, market experience, estimated future cash flows and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, but not limited to, the following statements, as well as statements that contain such words as "anticipates," "intends," "believes," "plans" and other similar expressions:

- The Company's belief that its overall performance is best measured by fiscal year results rather than by quarterly results.
- The Company's expectation that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance major account sales activities and to support its worldwide sales distribution and marketing strategies, and the business in general.

[Table of Contents](#)

- The Company's intentions related to investments in research and development, particularly as it relates to expanding the capabilities of its flagship products and other products within its broad portfolio of simulation software, evolution of its ANSYS® Workbench™ platform, HPC capabilities, robust design and ongoing integration.
- The Company's plans related to future capital spending.
- The Company's intentions regarding its hybrid sales and distribution model.
- The sufficiency of existing cash and cash equivalent balances to meet future working capital and capital expenditure requirements.
- The Company's assessment of the ultimate liabilities arising from various investigations, claims and legal proceedings.
- The Company's statement regarding the strength of the features, functionality and integrated multiphysics capabilities of its software products.
- The Company's statement regarding increased exposure to volatility of foreign exchange rates.
- The Company's intentions related to investments in complementary companies, products, services and technologies.
- The Company's estimates regarding the expected impact on reported revenue related to the acquisition accounting treatment of deferred revenue.
- The Company's estimation that it is probable that all remaining payments will be made for deferred compensation related to the Apache acquisition and contingent consideration related to both the Apache and EVEN acquisitions.
- The Company's expectations regarding the outcome of its service tax audit case.
- The Company's intention to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries.
- The Company's forecast that sales growth will be slowed in Europe until the sanctions imposed against Russia are clarified, and geopolitical tensions between Russia, Ukraine, the Crimea and the Commonwealth of Independent States are resolved.

Forward-looking statements should not be unduly relied upon because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the Company's control. The Company's actual results could differ materially from those set forth in forward-looking statements. Certain factors, among others, that might cause such a difference include risks and uncertainties disclosed in the Company's most recent Annual Report on Form 10-K, Part I, Item 1A. Information regarding new risk factors or material changes to these risk factors have been included within Part II, Item 1A of this Quarterly Report on Form 10-Q.

Results of Operations**Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2013**Revenue:

<i>(in thousands, except percentages)</i>	Three Months Ended March 31,		Change	
	2014	2013	Amount	%
Revenue:				
Lease licenses	\$ 78,812	\$ 72,911	\$ 5,901	8.1
Perpetual licenses	47,617	45,964	1,653	3.6
Software licenses	126,429	118,875	7,554	6.4
Maintenance	83,033	73,644	9,389	12.7
Service	5,809	5,213	596	11.4
Maintenance and service	88,842	78,857	9,985	12.7
Total revenue	\$ 215,271	\$ 197,732	\$ 17,539	8.9

The Company's revenue in the quarter ended March 31, 2014 increased 8.9% as compared to the quarter ended March 31, 2013. The growth was partially influenced by the Company's continued investment in its global sales, support and marketing organizations. Revenue from lease licenses increased 8.1% as compared to the quarter ended March 31, 2013 due primarily to growth in Apache lease license revenue. Perpetual license revenue, which is derived primarily from new sales during the quarter, increased 3.6% as compared to the prior year quarter. Annual maintenance contracts that were sold with new perpetual licenses, along with maintenance contracts sold with new perpetual licenses in previous quarters, contributed to maintenance revenue growth of 12.7%. Service revenue increased 11.4% as compared to the prior year due to an increase in engineering consulting projects.

With respect to revenue, on average for the quarter ended March 31, 2014, the U.S. Dollar was approximately 0.8% stronger, when measured against the Company's primary foreign currencies, than for the quarter ended March 31, 2013. The net overall strengthening resulted in decreased revenue of \$0.9 million during the quarter ended March 31, 2014, as compared with the same quarter of 2013. The impact on revenue was primarily driven by \$3.4 million of adverse impact due to a weakening Japanese Yen, partially offset by \$2.4 million of favorable impact due to a strengthening Euro. The net overall strengthening of the U.S. Dollar also resulted in decreased operating income of approximately \$0.9 million during the quarter ended March 31, 2014, as compared with the same quarter of 2013. The impact on operating income was primarily driven by \$2.6 million of adverse impact due to a weakening Japanese Yen, partially offset by \$1.5 million of favorable impact due to a strengthening Euro.

A substantial portion of the Company's license and maintenance revenue is derived from annual lease and maintenance contracts. These contracts are generally renewed on an annual basis and typically have a high rate of customer renewal. In addition to the recurring revenue base associated with these contracts, a majority of customers purchasing new perpetual licenses also purchase related annual maintenance contracts. As a result of the significant recurring revenue base, the Company's license and maintenance revenue growth rate in any period does not necessarily correlate to the growth rate of new license and maintenance contracts sold during that period. To the extent the rate of customer renewal for lease and maintenance contracts is high, incremental lease contracts, and maintenance contracts sold with new perpetual licenses, will result in license and maintenance revenue growth. Conversely, if the rate of renewal for these contracts is adversely affected by economic or other factors, the Company's license and maintenance growth will be adversely affected over the term that the revenue for those contracts would have otherwise been recognized.

International and domestic revenues, as a percentage of total revenue, were 65.9% and 34.1%, respectively, during the quarter ended March 31, 2014, and 66.1% and 33.9%, respectively, during the quarter ended March 31, 2013. The Company derived 23.4% and 24.7% of its total revenue through the indirect sales channel for the quarters ended March 31, 2014 and 2013, respectively.

In valuing deferred revenue on the Reaction Design, Esterel and Apache balance sheets as of their respective acquisition dates, the Company applied the fair value provisions applicable to the accounting for business combinations. The impacts on reported revenue were \$1.2 million and \$1.8 million for the quarters ended March 31, 2014 and 2013, respectively. The expected impact on reported revenue is \$0.9 million and \$3.5 million for the quarter ending June 30, 2014 and for the year ending December 31, 2014, respectively.

Deferred Revenue and Backlog:

Deferred revenue consists of billings made or payments received in advance of revenue recognition from lease license and maintenance agreements. The deferred revenue on the Company's condensed consolidated balance sheets does not represent the total value of annual or multi-year, noncancellable lease license and maintenance agreements. The Company's backlog represents installment billings for periods beyond the current quarterly billing cycle and customer orders received but not invoiced. The Company's deferred revenue and backlog as of March 31, 2014 and December 31, 2013 consisted of the following:

<i>(in thousands)</i>	Balance at March 31, 2014		
	Total	Current	Long-Term
Deferred revenue	\$ 339,603	\$ 332,143	\$ 7,460
Backlog	97,333	36,753	60,580
Total	\$ 436,936	\$ 368,896	\$ 68,040

<i>(in thousands)</i>	Balance at December 31, 2013		
	Total	Current	Long-Term
Deferred revenue	\$ 317,730	\$ 309,775	\$ 7,955
Backlog	91,786	33,446	58,340
Total	\$ 409,516	\$ 343,221	\$ 66,295

Revenue associated with deferred revenue and backlog that is expected to be recognized in the subsequent twelve months is classified as current in the table above.

Cost of Sales and Gross Profit:

<i>(in thousands, except percentages)</i>	Three Months Ended March 31,					
	2014		2013		Change	
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Cost of sales:						
Software licenses	\$ 7,144	3.3	\$ 6,965	3.5	\$ 179	2.6
Amortization	9,315	4.3	9,874	5.0	(559)	(5.7)
Maintenance and service	21,286	9.9	19,395	9.8	1,891	9.7
Total cost of sales	37,745	17.5	36,234	18.3	1,511	4.2
Gross profit	\$ 177,526	82.5	\$ 161,498	81.7	\$ 16,028	9.9

Amortization: The decrease in amortization expense was primarily due to a decrease in amortization of acquired technology, partially offset by an increase in trade name amortization.

Maintenance and Service: The increase in maintenance and service costs was primarily due to increased salaries and incentive compensation of \$1.3 million.

The improvement in gross profit was a result of the increase in revenue offset by a smaller increase in related cost of sales.

Operating Expenses:

<i>(in thousands, except percentages)</i>	Three Months Ended March 31,					
	2014		2013		Change	
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Operating expenses:						
Selling, general and administrative	\$ 53,550	24.9	\$ 50,013	25.3	\$ 3,537	7.1
Research and development	40,120	18.6	36,007	18.2	4,113	11.4
Amortization	4,794	2.2	5,929	3.0	(1,135)	(19.1)
Total operating expenses	\$ 98,464	45.7	\$ 91,949	46.5	\$ 6,515	7.1

Selling, General and Administrative: The increase in selling, general and administrative costs was primarily due to the following:

- Increased salaries and incentive compensation of \$2.3 million.
- Reaction Design-related selling, general and administrative expenses of \$0.6 million for the period from the acquisition date (January 3, 2014) through March 31, 2014.
- Increased third-party commissions of \$0.4 million.
- Decreased stock-based compensation expense of \$0.7 million.

The Company anticipates that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance major account sales activities and to support its worldwide sales distribution and marketing strategies, and the business in general.

Research and Development: The increase in research and development costs was primarily due to the following:

- Increased salaries and other headcount-related costs, including incentive compensation of \$3.0 million.
- Reaction Design-related research and development expenses of \$0.6 million for the period from the acquisition date (January 3, 2014) through March 31, 2014.
- EVEN-related research and development expenses of \$0.5 million.
- Decreased stock-based compensation expense of \$0.5 million.

The Company has traditionally invested significant resources in research and development activities and intends to continue to make investments in this area, particularly as it relates to expanding the capabilities of its flagship products and other products within its broad portfolio of simulation software, evolution of its ANSYS® Workbench™ platform, expanding its HPC capabilities, robust design and ongoing integration.

Amortization: The decrease in amortization expense was primarily due to a net decrease in amortization of acquired customer lists and contract backlog.

Interest Expense: The Company's interest expense consists of the following:

<i>(in thousands)</i>	Three Months Ended	
	March 31, 2014	March 31, 2013
Discounted obligations	\$ 196	\$ 122
Term loan	—	139
Amortization of debt financing costs	—	92
Other	52	18
Total interest expense	\$ 248	\$ 371

Interest Income: Interest income for the quarter ended March 31, 2014 was \$0.8 million as compared to \$0.7 million during the quarter ended March 31, 2013. Interest income increased as a result of an increase in the Company's average invested cash balances.

[Table of Contents](#)

Other expense, net: The Company's other expense consists of the following:

<i>(in thousands)</i>	Three Months Ended	
	March 31, 2014	March 31, 2013
Foreign currency losses, net	\$ (173)	\$ (323)
Noncontrolling interest in income	10	—
Other	(35)	2
Total other expense, net	\$ (198)	\$ (321)

Income Tax Provision: The Company recorded income tax expense of \$22.9 million and had income before income taxes of \$79.5 million for the quarter ended March 31, 2014. During the quarter ended March 31, 2013, the Company recorded income tax expense of \$18.6 million and had income before income taxes of \$69.6 million. The effective tax rates were 28.8% and 26.7% for the first quarters of 2014 and 2013, respectively.

When compared to the federal and state combined statutory rate, these rates were favorably impacted by lower statutory tax rates in many of the Company's foreign jurisdictions, the domestic manufacturing deduction and legal entity structuring activities. In the first quarter of 2013, the rate was favorably impacted by the U.S. research and development credit which was retroactively reinstated for 2012 and 2013 in the first quarter of 2013. The availability of the research and development credit expired at the end of the 2013 tax year. It is uncertain whether the U.S. Congress will reinstate this credit, or, if reinstated, the amount of the credit that might be available for 2014 or future periods.

Net Income: The Company's net income in the first quarter of 2014 was \$56.5 million as compared to net income of \$51.0 million in the first quarter of 2013. Diluted earnings per share was \$0.60 in the first quarter of 2014 and \$0.54 in the first quarter of 2013. The weighted average shares used in computing diluted earnings per share were 94.9 million and 95.2 million in the first quarters of 2014 and 2013, respectively.

Non-GAAP Results

The Company provides non-GAAP revenue, non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share as supplemental measures to GAAP measures regarding the Company's operational performance. These financial measures exclude the impact of certain items and, therefore, have not been calculated in accordance with GAAP. A detailed explanation and a reconciliation of each non-GAAP financial measure to its most comparable GAAP financial measure are described below.

<i>(in thousands, except percentages and per share data)</i>	Three Months Ended					
	March 31, 2014			March 31, 2013		
	As Reported	Adjustments	Non-GAAP Results	As Reported	Adjustments	Non-GAAP Results

- (1) Amount represents the revenue not reported during the period as a result of the acquisition accounting adjustment associated with accounting for deferred revenue in business combinations.
- (2) Amount represents \$14.1 million of amortization expense associated with intangible assets acquired in business combinations, \$7.5 million of stock-based compensation expense, the \$1.2 million adjustment to revenue as reflected in (1) above and \$0.3 million of acquisition-related transaction expenses.
- (3) Amount represents the impact of the adjustments to operating income referred to in (2) above, adjusted for the related income tax impact of \$7.7 million.
- (4) Amount represents the revenue not reported during the period as a result of the acquisition accounting adjustment associated with accounting for deferred revenue in business combinations.
- (5) Amount represents \$15.8 million of amortization expense associated with intangible assets acquired in business combinations, \$8.8 million of stock-based compensation expense, the \$1.8 million adjustment to revenue as reflected in (4) above and \$0.2 million of acquisition-related transaction expenses.
- (6) Amount represents the impact of the adjustments to operating income referred to in (5) above, adjusted for the related income tax impact of \$9.8 million.

Non-GAAP Measures

Management uses non-GAAP financial measures (a) to evaluate the Company's historical and prospective financial performance as well as its performance relative to its competitors, (b) to set internal sales targets and spending budgets, (c) to allocate resources, (d) to measure operational profitability and the accuracy of forecasting, (e) to assess financial discipline over operational expenditures and (f) as an important factor in determining variable compensation for management and its employees. In addition, many financial analysts that follow the Company focus on and publish both historical results and future projections based on non-GAAP financial measures. The Company believes that it is in the best interest of its investors to provide this information to analysts so that they accurately report the non-GAAP financial information. Moreover, investors have historically requested and the Company has historically reported these non-GAAP financial measures as a means of providing consistent and comparable information with past reports of financial results.

While management believes that these non-GAAP financial measures provide useful supplemental information to investors, there are limitations associated with the use of these non-GAAP financial measures. These non-GAAP financial measures are not prepared in accordance with GAAP, are not reported by all of the Company's competitors and may not be directly comparable to similarly titled measures of the Company's competitors due to potential differences in the exact method of calculation. The Company compensates for these limitations by using these non-GAAP financial measures as supplements to GAAP financial measures and by reviewing the reconciliations of the non-GAAP financial measures to their most comparable GAAP financial measures.

The adjustments to these non-GAAP financial measures, and the basis for such adjustments, are outlined below:

Acquisition accounting for deferred revenue and its related tax impact. Historically, the Company has consummated acquisitions in order to support its strategic and other business objectives. In accordance with the fair value provisions applicable to the accounting for business combinations, acquired deferred revenue is often recorded on the opening balance sheet at an amount that is lower than the historical carrying value. Although this purchase accounting requirement has no impact on the Company's business or cash flow, it adversely impacts the Company's reported GAAP revenue in the reporting periods following an acquisition. In order to provide investors with financial information that facilitates comparison of both historical and future results, the Company provides non-GAAP financial measures which exclude the impact of the acquisition accounting adjustment. The Company believes that this non-GAAP financial adjustment is useful to investors because it allows investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past and future reports of financial results of the Company as the revenue reduction related to acquired deferred revenue will not recur when related annual lease licenses and software maintenance contracts are renewed in future periods.

Amortization of intangibles from acquisitions and its related tax impact. The Company incurs amortization of intangibles, included in its GAAP presentation of amortization expense, related to various acquisitions it has made in recent years. Management excludes these expenses and their related tax impact for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company because these costs are fixed at the time of an acquisition, are then amortized over a period of several years after the acquisition and generally cannot be changed or influenced by management after the acquisition. Accordingly, management does not consider these expenses for purposes of evaluating the performance of the Company during the applicable time period after the acquisition, and it excludes such expenses when making decisions to allocate resources. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past reports of financial results of the Company as the Company has historically reported these non-GAAP financial measures.

Stock-based compensation expense and its related tax impact. The Company incurs expense related to stock-based compensation included in its GAAP presentation of cost of software licenses; cost of maintenance and service; research and development expense and selling, general and administrative expense. Although stock-based compensation is an expense of the Company and viewed as a form of compensation, management excludes these expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company. Specifically, the Company excludes stock-based compensation during its annual budgeting process and its quarterly and annual assessments of the Company's and management's performance. The annual budgeting process is the primary mechanism whereby the Company allocates resources to various initiatives and operational requirements. Additionally, the annual review by the board of directors during which it compares the Company's historical business model and profitability to the planned business model and profitability for the forthcoming year excludes the impact of stock-based compensation. In evaluating the performance of senior management and department managers, charges related to stock-based compensation are excluded from expenditure and profitability results. In fact, the Company records stock-based compensation expense into a stand-alone cost center for which no single operational manager is responsible or accountable. In this way, management is able to review, on a period-to-period basis, each manager's performance and assess financial discipline over operational expenditures without the effect of stock-based compensation. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

Transaction costs related to business combinations. The Company incurs expenses for professional services rendered in connection with business combinations, which are included in its GAAP presentation of selling, general and administrative expense. These expenses are generally not tax deductible. Management excludes these acquisition-related transaction expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company, as it generally would not have otherwise incurred these expenses in the periods presented as a part of its continuing operations. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

[Table of Contents](#)

Non-GAAP financial measures are not in accordance with, or an alternative for, GAAP. The Company's non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP.

The Company has provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures as listed below:

<u>GAAP Reporting Measure</u>	<u>Non-GAAP Reporting Measure</u>
Revenue	Non-GAAP Revenue
Operating Income	Non-GAAP Operating Income
Operating Profit Margin	Non-GAAP Operating Profit Margin
Net Income	Non-GAAP Net Income
Diluted Earnings Per Share	Non-GAAP Diluted Earnings Per Share

Liquidity and Capital Resources

<i>(in thousands)</i>	March 31, 2014	December 31, 2013	Change
Cash, cash equivalents and short-term investments	\$ 858,243	\$ 742,986	\$ 115,257
Working capital	\$ 690,515	\$ 627,165	\$ 63,350

Cash, cash equivalents and short-term investments

Cash and cash equivalents consist primarily of highly liquid investments such as money market mutual funds and deposits held at major banks. Short-term investments consist primarily of deposits held by certain foreign subsidiaries of the Company with original maturities of three months to one year. The following table presents the Company's foreign and domestic holdings of cash, cash equivalents and short-term investments as of March 31, 2014 and December 31, 2013:

<i>(in thousands)</i>	March 31, 2014	% of Total	December 31, 2013	% of Total
Cash, cash equivalents and short-term investments held domestically	\$ 641,242	74.7%	\$ 530,680	71.4%
Cash, cash equivalents and short-term investments held by foreign subsidiaries	217,001	25.3%	212,306	28.6%
Total	\$ 858,243		\$ 742,986	

If the foreign balances were repatriated to the U.S., they would be subject to domestic tax, resulting in a tax obligation in the period of repatriation. In general, it is the practice and intention of the Company to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries. The amount of cash, cash equivalents and short-term investments held by foreign subsidiaries is subject to translation adjustments caused by changes in foreign currency exchange rates as of the end of each respective reporting period, the offset to which is recorded in accumulated other comprehensive income on the Company's condensed consolidated balance sheet.

Working capital

The increase in working capital from December 31, 2013 to March 31, 2014 is due primarily to the increase in cash and cash equivalents realized through cash flows from operations. In February 2014, the Company received a \$26.8 million refund related to its 2009 and 2010 federal income tax returns. The Joint Committee on Taxation reviewed these returns in 2013 and took no exception.

Cash Flows from Operating Activities

<i>(in thousands)</i>	Three Months Ended March 31,		Change
	2014	2013	
Net cash provided by operating activities	\$ 131,639	\$ 95,434	\$ 36,205

Cash flows from operations increased during the current fiscal year due to increased net cash flows from operating assets and liabilities of \$30.9 million and increased net income (net of non-cash operating adjustments) of \$5.3 million. The increase in cash flows from operating assets and liabilities was primarily driven by the income tax refund referenced in the working capital discussion above.

Cash Flows from Investing Activities

(in thousands)	Three Months Ended March 31,		Change
	2014	2013	
Net cash used in investing activities	\$ (22,533)	\$ (4,117)	\$ (18,416)

Cash used in investing activities increased during the current fiscal year due primarily to acquisition-related cash outlays of \$18.4 million (net of \$0.7 million in acquired cash) for the Reaction Design business combination in the first quarter of 2014. The Company currently plans capital spending of \$35 million to \$45 million for the 2014 fiscal year as compared to \$28.8 million in 2013. The planned increase is attributable to costs associated with the Company's new Canonsburg, Pennsylvania headquarters facility expected to be completed in late 2014. The Company has occupied its current headquarters facility since 1997. The level of spending will be dependent upon various factors, including growth of the business and general economic conditions.

Cash Flows from Financing Activities

(in thousands)	Three Months Ended March 31,		Change
	2014	2013	
Net cash provided by (used in) financing activities	\$ 5,501	\$ (11,883)	\$ 17,384

The change in cash activity related to financing activities was due primarily to the Company having no long-term debt payments in 2014. During the first quarter of 2013, the Company made its scheduled \$26.6 million principal payment on its term loan. The Company paid its outstanding loan balance at maturity on July 31, 2013. Also contributing to the change were decreased proceeds from the exercise of stock options of \$6.0 million in the first quarter of 2014 as compared to the first quarter of 2013.

On April 30, 2014, the Company completed the acquisition of SpaceClaim, a leading provider of 3D modeling technology. Under the terms of the agreement, ANSYS acquired SpaceClaim for a purchase price of \$85.0 million in cash, plus retention vehicles and an adjustment for working capital. The operating results of SpaceClaim will be included in the Company's consolidated financial statements from the date of acquisition and, accordingly, SpaceClaim's operating results are not included in the financial results presented in this Quarterly Report on Form 10-Q.

On January 3, 2014, the Company completed the acquisition of Reaction Design, a leading developer of chemistry simulation software. Under the terms of the agreement, ANSYS acquired Reaction Design for a purchase price of \$19.1 million in cash. The operating results of Reaction Design have been included in the Company's condensed consolidated financial statements since the date of acquisition.

The Company believes that existing cash and cash equivalent balances of \$857.7 million, together with cash generated from operations, will be sufficient to meet the Company's working capital and capital expenditure requirements through the next twelve months. The Company's cash requirements in the future may also be financed through additional equity or debt financings. There can be no assurance that such financings can be obtained on favorable terms, if at all.

As of March 31, 2014, 3.0 million shares remain authorized for repurchase under the Company's stock repurchase program.

The Company continues to generate positive cash flows from operating activities and believes that the best use of its excess cash is to invest in the business, to repurchase stock in order to offset dilution and to return capital to stockholders in excess of our requirements with the goal of increasing stockholder value. Additionally, the Company has in the past, and expects in the future, to acquire or make investments in complementary companies, products, services and technologies. Any future acquisitions may be funded by available cash and investments, cash generated from operations, credit facilities, or from the issuance of additional securities.

Off-Balance-Sheet Arrangements

The Company does not have any special purpose entities or off-balance sheet financing.

Contractual Obligations

There were no material changes to the Company's significant contractual obligations during the three months ended March 31, 2014 as compared to those previously reported in "Management's Discussion and Analysis of Financial Condition and Results of Operations" within the Company's most recent Annual Report on Form 10-K.

Critical Accounting Policies and Estimates

During the first quarter of 2014, the Company completed the annual impairment test for goodwill and indefinite-lived intangible assets and determined that these assets had not been impaired as of the test date, January 1, 2014. No events or circumstances changed during the three months ended March 31, 2014 that would indicate that the fair values of the Company's reporting units or indefinite-lived intangible assets are below their carrying amounts.

No significant changes have occurred to the Company's critical accounting policies and estimates as previously reported within "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's most recent Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Income Rate Risk. Changes in the overall level of interest rates affect the interest income that is generated from the Company's cash and short-term investments. For the three months ended March 31, 2014 and 2013, total interest income was \$0.8 million and \$0.7 million, respectively. Cash and cash equivalents consist primarily of highly liquid investments such as money market mutual funds and deposits held at major banks.

Foreign Currency Transaction Risk. As the Company continues to expand its business presence in international regions, the portion of its revenue, expenses, cash, accounts receivable and payment obligations denominated in foreign currencies continues to increase. As a result, changes in currency exchange rates will affect the Company's financial position, results of operations and cash flows. The Company is most impacted by movements in and among the Euro, British Pound, Japanese Yen, Indian Rupee, Korean Won and the U.S. Dollar.

With respect to revenue, on average for the quarter ended March 31, 2014, the U.S. Dollar was approximately 0.8% stronger, when measured against the Company's primary foreign currencies, than for the quarter ended March 31, 2013. The net overall strengthening resulted in decreased revenue of \$0.9 million during the quarter ended March 31, 2014, as compared with the same quarter of 2013. The impact on revenue was primarily driven by \$3.4 million of adverse impact due to a weakening Japanese Yen, partially offset by \$2.4 million of favorable impact due to a strengthening Euro. The net overall strengthening of the U.S. Dollar also resulted in decreased operating income of approximately \$0.9 million during the quarter ended March 31, 2014, as compared with the same quarter of 2013. The impact on operating income was primarily driven by \$2.6 million of adverse impact due to a weakening Japanese Yen, partially offset by \$1.5 million of favorable impact due to a strengthening Euro.

The Company has foreign currency denominated liabilities. In order to provide a natural hedge to mitigate the foreign currency exchange risk, the Company will purchase foreign currencies and hold these currencies in cash until the liabilities are settled.

The most significant currency impacts on revenue and operating income were primarily attributable to U.S. Dollar exchange rate changes against the British Pound, Euro and Japanese Yen as reflected in the charts below:

As of	Period End Exchange Rates		
	GBP/USD	EUR/USD	USD/JPY
March 31, 2013	1.520	1.282	94.251
December 31, 2013	1.656	1.375	105.263
March 31, 2014	1.666	1.377	103.199

Three Months Ended	Average Exchange Rates		
	GBP/USD	EUR/USD	USD/JPY
March 31, 2013	1.550	1.320	92.335
June 30, 2013	1.536	1.307	98.615
September 30, 2013	1.552	1.326	98.864
December 31, 2013	1.620	1.361	100.445
March 31, 2014	1.655	1.370	102.753

No other material change has occurred in the Company's market risk subsequent to December 31, 2013.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, the Company has evaluated, with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures are effective, as defined in Rule 13a-15(e) of the Exchange Act.

The Company has a Disclosure Review Committee to assist in the quarterly evaluation of the Company's internal disclosure controls and procedures and in the review of the Company's periodic filings under the Exchange Act. The membership of the Disclosure Review Committee consists of the Company's Chief Executive Officer, Chief Financial Officer, Global Controller, General Counsel, Director of Investor Relations and Global Insurance, Vice President of Worldwide Sales and Support, Vice President of Human Resources, Vice President of Marketing and Chief Product Officer. This committee is advised by external counsel, particularly on SEC-related matters. Additionally, other members of the Company's global management team advise the committee with respect to disclosure via a sub-certification process.

The Company believes, based on its knowledge, that the financial statements and other financial information included in this report fairly present, in all material respects, the financial condition, results of operations and cash flows of the Company as of and for the periods presented in this report. The Company is committed to both a sound internal control environment and to good corporate governance.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

From time to time, the Company reviews the disclosure controls and procedures and may make changes to enhance their effectiveness and to ensure that the Company's systems evolve with its business.

Changes in Internal Control. There were no changes in the Company's internal control over financial reporting that occurred during the three months ended March 31, 2014 that materially affected, or were reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including alleged infringement of intellectual property rights, commercial disputes, labor and employment matters, tax audits and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material, adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could in the future materially affect the Company's results of operations, cash flows or financial position.

Item 1A. Risk Factors

The Company cautions investors that its performance (and, therefore, any forward-looking statement) is subject to risks and uncertainties. Various important factors may cause the Company's future results to differ materially from those projected in any forward-looking statement. These factors were disclosed in, but are not limited to, the items within the Company's most recent Annual Report on Form 10-K, Part I, Item 1A. No material changes have occurred regarding the Company's risk factors subsequent to December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

We have reviewed, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the unaudited interim financial information of ANSYS, Inc. and subsidiaries for the periods ended March 31, 2014, and 2013, as indicated in our report dated May 1, 2014; because we did not perform an audit, we expressed no opinion on that information.

We are aware that our report referred to above, which is included in your Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, is incorporated by reference in Registration Statement Nos. 333-08613, 333-69506, 333-110728, 333-137274, 333-152765, 333-174670, and 333-177030 on Form S-8.

We also are aware that the aforementioned report, pursuant to Rule 436(c) under the Securities Act of 1933, is not considered a part of the Registration Statement prepared or certified by an accountant or a report prepared or certified by an accountant within the meaning of Sections 7 and 11 of that Act.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, James E. Cashman III, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ANSYS, Inc. (“ANSYS”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of ANSYS as of, and for, the periods presented in this report;
4. ANSYS’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for ANSYS and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to ANSYS, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of ANSYS’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in ANSYS’s internal control over financial reporting that occurred during ANSYS’s most recent fiscal quarter (ANSYS’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, ANSYS’s internal control over financial reporting; and
5. ANSYS’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to ANSYS’s auditors and the audit committee of ANSYS’s board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect ANSYS’s ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in ANSYS’s internal control over financial reporting.

CHIEF FINANCIAL OFFICER CERTIFICATION

I, Maria T. Shields, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ANSYS, Inc. (“ANSYS”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of ANSYS as of, and for, the periods presented in this report;
4. ANSYS’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for ANSYS and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to ANSYS, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of ANSYS’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in ANSYS’s internal control over financial reporting that occurred during ANSYS’s most recent fiscal quarter (ANSYS’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, ANSYS’s internal control over financial reporting; and
5. ANSYS’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to ANSYS’s auditors and the audit committee of ANSYS’s board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect ANSYS’s ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in ANSYS’s internal control over financial reporting.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of ANSYS, Inc. (the "Company") on Form 10-Q for the quarter ended March 31, 2014 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, James E. Cashman III, President and Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is provided solely pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and shall not be deemed to be part of the Report or filed for any purpose whatsoever.
