FORM 10-Q

ANSYS INC - ANSS

Filed: August 05, 2015 (period: June 30, 2015)

Quarterly report with a continuing view of a company's financial position

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 0-20853

ANSYS, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

04-3219960

(I.R.S. Employer Identification No.)

2600 ANSYS Drive, Canonsburg, PA

(Address of principal executive offices)

15317

(Zip Code)

724-746-3304

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by a check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company (as defined in Exchange Act Rule 12b-2). (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares of the Registrant's Common Stock, par value \$.01 per share, outstanding as of July 30, 2015 was 90,144,103 shares.

ANSYS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015
(Unaudited)

1. Organization

ANSYS, Inc. (hereafter the "Company" or "ANSYS") develops and globally markets engineering simulation software and technologies widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace, automotive, manufacturing, electronics, biomedical, energy and defense.

As of January 1, 2015, the Company began to operate as one segment when two legal entities merged and a third insignificant acquired segment was no longer separately reported internally. Given the integrated approach to the multi-discipline problem-solving needs of the Company's customers, a single sale of software may contain components from multiple product areas and include combined technologies. The Company also has a multi-year product and integration strategy that will result in new, combined products or changes to or discontinuation of the historical product offerings. As a result, it is impracticable for the Company to provide accurate historical or current reporting among its various product lines.

2. Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by ANSYS in accordance with accounting principles generally accepted in the United States for interim financial information for commercial and industrial companies and the instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the accompanying statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements (and notes thereto) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. The condensed consolidated December 31, 2014 balance sheet presented is derived from the audited December 31, 2014 balance sheet included in the most recent Annual Report on Form 10-K. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included, and all adjustments are of a normal and recurring nature. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for any future period.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of highly liquid investments such as deposits held at major banks and money market mutual funds. Cash equivalents are carried at cost, which approximates fair value. The Company's cash and cash equivalent balances comprise the following:

<i>(in thousands, except percentages)</i>	June 30, 2015		December 31, 2014	
	Amount	% of Total	Amount	% of Total
Cash accounts	\$ 431,664	51.4	\$ 506,731	64.3
Money market mutual funds	408,690	48.6	281,333	35.7
Total	<u>\$ 840,354</u>		<u>\$ 788,064</u>	

The Company's money market mutual fund balances are held in various funds of a single issuer.

3. Acquisitions

Newmerical Technologies International

On February 3, 2015, the Company acquired certain assets and liabilities of Newmerical Technologies International ("NTI"), a leading developer of in-flight icing simulation software, for a purchase price of approximately \$10.4 million in cash, plus retention vehicles and an adjustment for working capital. NTI's software can solve problems in aerodynamics, in-flight icing, heat transfer, fluid-structure interaction and wind engineering for customers in the aerospace, architectural, automotive and marine industries. The complementary combination is expected to accelerate development of new and innovative products to the marketplace while lowering design and engineering costs for customers.

[Table of Contents](#)

The operating results of NTI have been included in the Company's condensed consolidated financial statements since February 3, 2015, the date of acquisition. The total consideration transferred was allocated to the assets and liabilities of NTI based on management's estimates of the fair values of the assets acquired and liabilities assumed. The allocation included \$3.6 million to identifiable intangible assets, including core technology and customer lists, to be amortized over periods between five and seven years, and \$5.3 million to goodwill, which is partially tax-deductible. These amounts include measurement-period adjustments. The fair values of the assets acquired and liabilities assumed are based on preliminary calculations and the estimates and assumptions for these items are subject to change as additional information about what was known and knowable at the acquisition date is obtained during the measurement period (up to one year from the acquisition date).

Pro forma results of operations have not been presented as the effects of the NTI business combination were not material to the Company's consolidated results of operations.

In valuing deferred revenue on the NTI balance sheet as of the acquisition date, the Company applied the fair value provisions applicable to the accounting for business combinations. Acquired deferred revenue with a historical carrying value of \$0.5 million was ascribed no fair value on the opening balance sheet. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and NTI absent the acquisition. The impact on reported revenue for the three and six months ended June 30, 2015 was \$0.2 million and \$0.4 million, respectively. The expected impact on reported revenue is \$0.1 million for the quarter ending September 30, 2015 and \$0.5 million for the year ending December 31, 2015.

SpaceClaim Corporation

On April 30, 2014, the Company completed the acquisition of SpaceClaim Corporation ("SpaceClaim"), a leading provider of 3-D modeling technology. Under the terms of the agreement, the Company acquired SpaceClaim for a purchase price of \$85.0 million, which was paid almost entirely in cash.

SpaceClaim's software provides customers with a powerful and intuitive 3-D direct modeling solution to author new concepts and then leverage the power of simulation to rapidly iterate on these designs to drive innovation. The broad appeal of the SpaceClaim technology can help the Company deliver simulation tools to any engineer in any industry.

The operating results of SpaceClaim have been included in the Company's condensed consolidated financial statements since April 30, 2014, the date of acquisition.

[Table of Contents](#)

The assets and liabilities of SpaceClaim have been recorded based upon management's estimates of their fair market values as of the acquisition date. The following tables summarize the fair value of consideration transferred and the fair values of identified assets acquired and liabilities assumed at the acquisition date, as adjusted within the one-year measurement period:

Fair Value of Consideration Transferred:*(in thousands)*

Cash	\$	84,892
ANSYS replacement stock options		68
Total consideration transferred at fair value	\$	84,960

Recognized Amounts of Identifiable Assets Acquired and Liabilities Assumed:*(in thousands)*

Cash	\$	723
Accounts receivable and other tangible assets		1,857
Developed technology (10-year life)		15,800
Customer relationships (6-year life)		9,400
Trade name (6-year life)		1,300
Contract backlog (6-year life)		550
Non-compete agreement (2-year life)		300
Net deferred tax assets		9,288
Accounts payable and other liabilities		(2,011)
Deferred revenue		(700)
Total identifiable net assets	\$	36,507
Goodwill	\$	48,453

The goodwill, which is not tax-deductible, is attributed to intangible assets that do not qualify for separate recognition, including the assembled workforce of the acquired business and the synergies expected to arise as a result of the acquisition of SpaceClaim.

During the one-year measurement period since the SpaceClaim acquisition date, the Company adjusted the fair values of the assets acquired and liabilities assumed, with the offset recorded as a \$4.8 million decrease to goodwill. These adjustments were based on refinements to assumptions used in the preliminary valuation of deferred revenue, accounts payable and other liabilities, and information about what was known and knowable as of the acquisition date in the calculation of the net deferred tax assets.

In valuing deferred revenue on the SpaceClaim balance sheet as of the acquisition date, the Company applied the fair value provisions applicable to the accounting for business combinations. Acquired deferred revenue with a historical carrying value of \$3.3 million was ascribed a fair value of \$0.7 million on the opening balance sheet. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and SpaceClaim absent the acquisition. The impact on reported revenue for the three and six months ended June 30, 2015 was \$0.2 million and \$0.5 million, respectively. The expected impact on reported revenue is \$0.1 million for the quarter ending September 30, 2015 and \$0.6 million for the year ending December 31, 2015.

Reaction Design

On January 3, 2014, the Company completed the acquisition of Reaction Design, a leading developer of chemistry simulation software. Under the terms of the agreement, the Company acquired Reaction Design for a purchase price of \$19.1 million in cash. Reaction Design's solutions enable transportation manufacturers and energy companies to rapidly achieve their clean technology goals by automating the analysis of chemical processes via computer simulation and modeling solutions.

The operating results of Reaction Design have been included in the Company's condensed consolidated financial statements since January 3, 2014, the date of acquisition. The total consideration transferred was allocated to the assets and liabilities of Reaction Design based on management's estimates of the fair values of the assets acquired and liabilities assumed. The allocation included \$7.0 million to identifiable intangible assets, including core technology, customer lists and trade names, to be amortized over periods between two and eleven years, and \$9.2 million to goodwill, which is not tax-deductible. These amounts include measurement-period adjustments. During the one-year measurement period since the Reaction Design

[Table of Contents](#)

acquisition date, the Company adjusted the fair values of the assets acquired and liabilities assumed, with the offset recorded as an increase to goodwill of \$1.9 million and a reduction in noncontrolling interest of \$0.6 million. These adjustments were based on refinements to assumptions used in the preliminary valuation of intangible assets and information about what was known and knowable as of the acquisition date in the calculation of the net deferred tax assets.

In valuing deferred revenue on the Reaction Design balance sheet as of the acquisition date, the Company applied the fair value provisions applicable to the accounting for business combinations. Acquired deferred revenue with a historical carrying value of \$2.3 million was ascribed no fair value on the opening balance sheet. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and Reaction Design absent the acquisition. The impact on reported revenue for each of the three and six months ended June 30, 2015 was \$0.1 million. The expected impact on reported revenue is \$0.2 million for the year ending December 31, 2015.

4. Other Receivables and Current Assets

The Company's other receivables and current assets comprise the following balances:

<i>(in thousands)</i>	June 30, 2015	December 31, 2014
Receivables related to unrecognized revenue	\$ 111,878	\$ 152,830
Income taxes receivable, including overpayments and refunds	23,308	18,276
Prepaid expenses and other current assets	23,754	21,202
Total other receivables and current assets	<u>\$ 158,940</u>	<u>\$ 192,308</u>

Receivables for unrecognized revenue represent the current portion of billings made for annual lease licenses and software maintenance that have not yet been recognized as revenue.

5. Earnings Per Share

Basic earnings per share ("EPS") amounts are computed by dividing earnings by the weighted average number of common shares outstanding during the period. Diluted EPS amounts assume the issuance of common stock for all potentially dilutive equivalents outstanding. To the extent stock awards are anti-dilutive, they are excluded from the calculation of diluted EPS.

The details of basic and diluted EPS are as follows:

<i>(in thousands, except per share data)</i>	Three Months Ended		Six Months Ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Net income	\$ 62,335	\$ 63,036	\$ 118,467	\$ 119,578
Weighted average shares outstanding – basic	89,866	92,314	89,962	92,398
Dilutive effect of stock plans	1,860	2,024	1,971	2,246
Weighted average shares outstanding – diluted	<u>91,726</u>	<u>94,338</u>	<u>91,933</u>	<u>94,644</u>
Basic earnings per share	\$ 0.69	\$ 0.68	\$ 1.32	\$ 1.29
Diluted earnings per share	\$ 0.68	\$ 0.67	\$ 1.29	\$ 1.26
Anti-dilutive shares	223	1,191	230	1,198

6. Goodwill and Intangible Assets

The Company's intangible assets and estimated useful lives are classified as follows:

	June 30, 2015		December 31, 2014	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
<i>(in thousands)</i>				
Amortized intangible assets:				
Developed software and core technologies (5 – 11 years)	\$ 324,942	\$ (239,172)	\$ 321,076	\$ (227,298)
Customer lists and contract backlog (5 – 15 years)	217,384	(129,178)	221,159	(121,380)
Trade names (2 – 10 years)	128,030	(69,638)	114,432	(63,082)
Non-compete agreement (2 years)	300	(176)	300	(52)
Total	<u>\$ 670,656</u>	<u>\$ (438,164)</u>	<u>\$ 656,967</u>	<u>\$ (411,812)</u>
Unamortized intangible assets:				
Trade names	<u>\$ 357</u>		<u>\$ 14,157</u>	

The decrease in unamortized trade names in the table above was due to the determination that a trade name no longer had an indefinite life. Amortization expense for the intangible assets reflected above was \$14.8 million and \$15.2 million for the three months ended June 30, 2015 and 2014, respectively. Amortization expense for the intangible assets reflected above was \$29.2 million and \$29.3 million for the six months ended June 30, 2015 and 2014, respectively.

As of June 30, 2015, estimated future amortization expense for the intangible assets reflected above is as follows:

<i>(in thousands)</i>	
Remainder of 2015	\$ 28,534
2016	49,244
2017	45,736
2018	32,105
2019	18,627
2020	17,825
Thereafter	40,421
Total intangible assets subject to amortization	232,492
Indefinite-lived trade names	357
Other intangible assets, net	<u>\$ 232,849</u>

The changes in goodwill during the six months ended June 30, 2015 and 2014 were as follows:

<i>(in thousands)</i>	2015	2014
Beginning balance – January 1	\$ 1,312,182	\$ 1,255,704
Acquisitions	5,411	60,484
Adjustments ⁽¹⁾	(3,601)	948
Currency translation	(1,871)	53
Ending balance – June 30	<u>\$ 1,312,121</u>	<u>\$ 1,317,189</u>

⁽¹⁾ In accordance with accounting for business combinations, the Company recorded adjustments to goodwill for the effect of changes in the preliminary fair values of the assets acquired and liabilities assumed during the measurement period (up to one year from the acquisition date) as the Company continued to consider what was known and knowable as of the acquisition date.

During the first quarter of 2015, the Company completed the annual impairment test for goodwill and indefinite-lived intangible assets and determined that these assets had not been impaired as of the test date, January 1, 2015. The Company tested the previously unamortized trade name discussed above for impairment during the first quarter of 2015 and determined that its fair value exceeded its carrying value, so no impairment was recorded. No other events or circumstances changed during the six months ended June 30, 2015 that would indicate that the fair values of the Company's reporting unit or indefinite-lived intangible asset are below their carrying amounts.

7. Fair Value Measurement

The valuation hierarchy for disclosure of assets and liabilities reported at fair value prioritizes the inputs for such valuations into three broad levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; or
- Level 3: unobservable inputs based on the Company's own assumptions used to measure assets and liabilities at fair value.

A financial asset's or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following tables provide the assets and liabilities carried at fair value and measured on a recurring basis:

<i>(in thousands)</i>	June 30, 2015	Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Cash equivalents	\$ 408,690	\$ 408,690	\$ —	\$ —
Short-term investments	\$ 816	\$ —	\$ 816	\$ —
Liabilities				
Contingent consideration	\$ (1,394)	\$ —	\$ —	\$ (1,394)

<i>(in thousands)</i>	December 31, 2014	Fair Value Measurements at Reporting Date Using:		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets				
Cash equivalents	\$ 281,333	\$ 281,333	\$ —	\$ —
Short-term investments	\$ 714	\$ —	\$ 714	\$ —
Liabilities				
Contingent consideration	\$ (2,621)	\$ —	\$ —	\$ (2,621)

The cash equivalents in the preceding tables represent money market mutual funds.

The short-term investments in the preceding tables represent deposits held by certain foreign subsidiaries of the Company. The deposits have fixed interest rates with maturity dates ranging from three months to one year.

The contingent consideration in the tables above represents potential future payments related to the EVEN acquisition in accordance with the merger agreement. The net present value calculations for the contingent consideration include significant unobservable inputs in the assumption that all remaining payments will be made, and therefore the liabilities were classified as Level 3 in the fair value hierarchy.

[Table of Contents](#)

The following tables present the changes in the Company's Level 3 liabilities that are measured at fair value on a recurring basis during the three and six months ended June 30, 2015 and 2014:

<i>(in thousands)</i>	Fair Value Measurement Using Significant Unobservable Inputs	
	Contingent Consideration	
Balance as of January 1, 2015	\$	2,621
Interest expense and foreign exchange activity included in earnings		122
Balance as of March 31, 2015	\$	2,743
Contingent payment		(1,456)
Interest expense and foreign exchange activity included in earnings		107
Balance as of June 30, 2015	\$	1,394

<i>(in thousands)</i>	Fair Value Measurement Using Significant Unobservable Inputs	
	Contingent Consideration	Deferred Compensation
Balance as of January 1, 2014	\$ 7,389	\$ 704
Contingent payment	(1,578)	—
Interest expense and foreign exchange activity included in earnings	164	3
Balance as of March 31, 2014	\$ 5,975	\$ 707
Interest expense and foreign exchange activity included in earnings	87	4
Balance as of June 30, 2014	\$ 6,062	\$ 711

The carrying values of cash, accounts receivable, accounts payable, accrued expenses, other accrued liabilities and short-term obligations approximate their fair values because of their short-term nature.

8. Geographic Information

Revenue to external customers is attributed to individual countries based upon the location of the customer. Revenue by geographic area is as follows:

<i>(in thousands)</i>	Three Months Ended		Six Months Ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
United States	\$ 87,372	\$ 78,399	\$ 168,841	\$ 151,779
Japan	25,840	27,790	52,538	56,720
Germany	22,365	24,340	45,592	49,502
South Korea	16,005	14,572	27,151	25,481
France	12,616	15,612	24,156	29,726
Canada	3,345	3,319	6,628	6,489
Other European	36,990	39,199	70,558	75,430
Other international	30,952	29,144	57,802	52,519
Total revenue	\$ 235,485	\$ 232,375	\$ 453,266	\$ 447,646

[Table of Contents](#)

Property and equipment by geographic area is as follows:

<i>(in thousands)</i>	June 30, 2015	December 31, 2014
United States	\$ 46,366	\$ 49,957
Europe	7,173	7,840
India	2,937	3,123
Other international	4,188	3,723
Total property and equipment	<u>\$ 60,664</u>	<u>\$ 64,643</u>

9. Stock-Based Compensation

Total stock-based compensation expense and its net impact on basic and diluted earnings per share are as follows:

<i>(in thousands, except per share data)</i>	Three Months Ended		Six Months Ended	
	June 30, 2015	June 30, 2014	June 30, 2015	June 30, 2014
Cost of sales:				
Software licenses	\$ 182	\$ 498	\$ 375	\$ 799
Maintenance and service	486	547	902	1,038
Operating expenses:				
Selling, general and administrative	4,722	4,769	8,789	8,246
Research and development	3,640	4,351	6,795	7,547
Stock-based compensation expense before taxes	9,030	10,165	16,861	17,630
Related income tax benefits	(2,911)	(2,804)	(5,729)	(4,860)
Stock-based compensation expense, net of taxes	<u>\$ 6,119</u>	<u>\$ 7,361</u>	<u>\$ 11,132</u>	<u>\$ 12,770</u>
Net impact on earnings per share:				
Basic earnings per share	\$ (0.07)	\$ (0.08)	\$ (0.12)	\$ (0.14)
Diluted earnings per share	\$ (0.07)	\$ (0.08)	\$ (0.12)	\$ (0.13)

10. Stock Repurchase Program

Under the Company's stock repurchase program, the Company repurchased shares during the six months ended June 30, 2015 and 2014, as follows:

<i>(in thousands, except shares and per share data)</i>	Six Months Ended	
	June 30, 2015	June 30, 2014
Number of shares repurchased	1,542,911	970,200
Average price paid per share	\$ 83.42	\$ 74.31
Total cost	<u>\$ 128,716</u>	<u>\$ 72,096</u>

In February 2015, the Company's Board of Directors increased the number of shares authorized for repurchase to a total of 5.0 million shares under the program. As of June 30, 2015, 4.4 million shares remained available for repurchase under the Company's stock repurchase program.

11. Contingencies and Commitments

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including commercial disputes, labor and employment matters, tax audits, alleged infringement of intellectual property rights and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material, adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could materially affect the Company's results of operations, cash flows or financial position.

An Indian subsidiary of the Company received a formal inquiry after a service tax audit was held in 2011. The Company could incur tax charges and related liabilities, including those related to the service tax audit case, of approximately \$6 million. The service tax issues raised in the Company's notice are very similar to the case, *M/s Microsoft Corporation (I) (P) Ltd. Vs Commissioner of Service Tax, New Delhi*, wherein the Delhi Customs, Excise and Service Tax Appellate Tribunal (CESTAT) has passed a favorable ruling to Microsoft. The Company can provide no assurances on whether the Microsoft case's favorable ruling will be challenged in higher courts or on the impact that the present Microsoft case's decision will have on the Company's audit case. The Company is uncertain as to when the service tax audit will be completed.

The Company sells software licenses and services to its customers under proprietary software license agreements. Each license agreement contains the relevant terms of the contractual arrangement with the customer, and generally includes certain provisions for indemnifying the customer against losses, expenses and liabilities from damages that are incurred by or awarded against the customer in the event the Company's software or services are found to infringe upon a patent, copyright or other proprietary right of a third party. To date, the Company has not had to reimburse any of its customers for any losses related to these indemnification provisions and no material claims asserted under these indemnification provisions are outstanding as of June 30, 2015. For several reasons, including the lack of prior material indemnification claims, the Company cannot determine the maximum amount of potential future payments, if any, related to such indemnification provisions.

12. New Accounting Guidance

Revenue from contracts with customers: In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* (ASU 2014-09). ASU 2014-09 supersedes most current revenue recognition guidance, including industry-specific guidance. Previous guidance requires an entity to recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the seller's price to the buyer is fixed or determinable, and collectibility is reasonably assured. Under the new guidance, an entity is required to evaluate revenue recognition by identifying a contract with a customer, identifying the performance obligations in the contract, determining the transaction price, allocating the transaction price to the performance obligations in the contract and recognizing revenue when (or as) the entity satisfies a performance obligation. This guidance will be effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. In July 2015, the FASB voted in favor of a one-year delay in the required adoption date of this standard to annual periods beginning after December 15, 2017. Entities have the option of using a full retrospective, cumulative effect or modified approach to adopt the guidance. This update will impact the timing and amounts of revenue recognized. The Company is currently evaluating the effect that implementation of this update will have on its financial results upon adoption.

13. Subsequent Events

On July 1, 2015, the Company completed the acquisition of Gear Design Solutions, Inc. ("Gear"), a provider of big data analytics used to solve problems confronting next-generation semiconductor and electronic system designs. Under the terms of the agreement, the Company acquired Gear for a purchase price of \$30 million in cash and equity, plus retention vehicles and an adjustment for working capital. The operating results of Gear will be included in the Company's consolidated financial statements from the date of acquisition and, accordingly, Gear's operating results are not included in the financial results presented in this Quarterly Report on Form 10-Q. The acquisition will be accounted for as a business combination.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
ANSYS, Inc.
Canonsburg, Pennsylvania

We have reviewed the accompanying condensed consolidated balance sheet of ANSYS, Inc. and subsidiaries (the "Company") as of June 30, 2015, and the related condensed consolidated statements of income and comprehensive income for the three-month and six-month periods ended June 30, 2015 and 2014, and of cash flows for the six-month periods ended June 30, 2015 and 2014. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of ANSYS, Inc. and subsidiaries as of December 31, 2014, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 26, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2014 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ Deloitte & Touche LLP
Pittsburgh, Pennsylvania
August 5, 2015

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**Overview:**

The Company's GAAP and non-GAAP results for the quarter ended June 30, 2015 as compared to the quarter ended June 30, 2014 were significantly impacted by a stronger U.S. Dollar. The Company's GAAP results for the three months ended June 30, 2015 reflect growth in revenue of 1.3%, operating income of 3.5% and diluted earnings per share of 1.5% as compared to the three months ended June 30, 2014. The Company's GAAP results for the six months ended June 30, 2015 reflect growth in revenue of 1.3%, operating income of 2.4% and diluted earnings per share of 2.4% as compared to the six months ended June 30, 2014. The Company experienced higher revenue in 2015 from growth in maintenance revenue, partially offset by decreased lease license and service revenues. The Company also experienced decreased operating expenses primarily due to cost reductions from foreign exchange translation as a result of the stronger U.S. Dollar.

The Company's non-GAAP results for the three months ended June 30, 2015 reflect increased revenue of 0.8%, decreased operating income of 0.1% and decreased diluted earnings per share of 1.2% as compared to the three months ended June 30, 2014. The Company's non-GAAP results for the six months ended June 30, 2015 reflect increased revenue of 0.8%, increased operating income of 0.4% and no change in diluted earnings per share as compared to the six months ended June 30, 2014. The non-GAAP results exclude the income statement effects of acquisition accounting adjustments to deferred revenue, stock-based compensation, acquisition-related amortization of intangible assets and transaction costs related to business combinations. For further disclosure regarding non-GAAP results, see the section titled "Non-GAAP Results" immediately preceding the section titled "Liquidity and Capital Resources."

The impacts on the Company's revenue and operating income due to the stronger U.S. Dollar for the three and six months ended June 30, 2015 as compared to the three and six months ended June 30, 2014 were as follows:

<i>(in thousands)</i>	Three Months Ended June 30, 2015		Six Months Ended June 30, 2015	
	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	\$ (19,256)	\$ (19,257)	\$ (34,760)	\$ (34,762)
Operating income	\$ (10,472)	\$ (10,898)	\$ (18,836)	\$ (19,648)

In constant currency⁽¹⁾, the Company's growth rates were as follows:

	Three Months Ended June 30, 2015		Six Months Ended June 30, 2015	
	GAAP	Non-GAAP	GAAP	Non-GAAP
Revenue	10%	9%	9%	9%
Operating income	16%	10%	14%	10%

⁽¹⁾ Constant currency amounts exclude the effect of foreign currency fluctuations on the reported results. To present this information, the results for 2015 for entities whose functional currency is a currency other than the U.S. Dollar were converted to U.S. Dollars at rates that were in effect for 2014, rather than the actual exchange rates in effect for 2015.

The Company's financial position includes \$841.2 million in cash and short-term investments, and working capital of \$680.0 million as of June 30, 2015.

Under the Company's stock repurchase program, the Company repurchased 1,542,911 shares during the six months ended June 30, 2015 at an average price per share of \$83.42, for a total cost of \$128.7 million.

On February 3, 2015, the Company acquired certain assets and liabilities of NTI, a leading developer of in-flight icing simulation software, for a purchase price of approximately \$10.4 million in cash. The operating results of NTI have been included in the Company's condensed consolidated financial statements since February 3, 2015, the date of acquisition.

ANSYS develops and globally markets engineering simulation software and services widely used by engineers, designers, researchers and students across a broad spectrum of industries and academia, including aerospace, automotive, materials and chemical processing, turbomachinery, consumer products, electronics, biomedical, energy, defense and others. Headquartered south of Pittsburgh, Pennsylvania, the Company employed approximately 2,700 people as of June 30, 2015 and focuses on the development of open and flexible solutions that enable users to analyze designs directly on the desktop, providing a common platform for fast, efficient and cost-conscious product development, from design concept to final-stage testing and validation. The Company distributes its suite of simulation technologies through a global network of independent channel partners and direct sales offices in strategic, global locations. It is the Company's intention to continue to maintain this hybrid sales and distribution model.

[Table of Contents](#)

The Company licenses its technology to businesses, educational institutions and governmental agencies. Growth in the Company's revenue is affected by the strength of global economies, general business conditions, currency exchange rate fluctuations, customer budgetary constraints and the competitive position of the Company's products. The Company believes that the features, functionality and integrated multiphysics capabilities of its software products are as strong as they have ever been. However, the software business is generally characterized by long sales cycles. These long sales cycles increase the difficulty of predicting sales for any particular quarter. The Company makes many operational and strategic decisions based upon short- and long-term sales forecasts that are impacted not only by these long sales cycles but also by current global economic conditions. As a result, the Company believes that its overall performance is best measured by fiscal year results rather than by quarterly results.

The Company's management considers the competition and price pressure that it faces in the short- and long-term by focusing on expanding the breadth, depth, ease of use and quality of the technologies, features, functionality and integrated multiphysics capabilities of its software products as compared to its competitors; investing in research and development to develop new and innovative products and increase the capabilities of its existing products; supplying new products and services; focusing on customer needs, training, consulting and support; and enhancing its distribution channels. From time to time, the Company also considers acquisitions to supplement its global engineering talent, product offerings and distribution channels.

Geographic Trends:

The following table presents the Company's geographic constant currency revenue growth during the three and six months ended June 30, 2015 as compared to the three and six months ended June 30, 2014:

	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
North America	11%	11%
Europe	8%	6%
General International Area	10%	9%
Total	10%	9%

In North America, the Company's performance was most influenced by the aerospace and defense, automotive and high-tech industries. Organic market growth, economic improvement, fuel efficiency pressures, environmental regulation and demand for smart technology were the primary drivers of growth. Sales hiring, sales pipeline building and customer engagement activities in North America remain strong, as demand for innovation continues to drive simulation investments across a broad array of industries. Additionally, the Company continued to experience increased interest from its leading customers to expand their enterprise deployments of ANSYS software products.

Europe experienced continued economic and geo-political challenges, but also experienced improvements from ongoing sales hiring initiatives and stronger channel partner performance as compared to the first quarter of 2015. Germany was the strongest market in the region. This strength was offset by slower new business growth in France and continued weakness in Russia. From an industry perspective, the Company experienced strength in the automotive, industrial equipment, aerospace and electronics industries. Similar to North America, organic market growth, economic improvement, fuel and machine efficiency, and environmental regulation were the primary drivers of growth. The sales hiring and sales pipeline building activities continued to be a major focus. Solid customer renewal rates in Europe remained intact.

In the General International Area, which primarily consists of the Asia-Pacific region, the Company experienced strength in India driven by continued sales and channel execution. The Company also experienced strength in China, South Korea and Taiwan. However, the Company continued to experience slower growth in the Chinese state-owned enterprises. Investments by high-tech, aerospace and defense, and automotive electronics companies drove the performance. The focus on expanding the Company's channel partner network in the region, finding new and complementary ways to better address the market opportunity and increasing sales capacity and productivity are ongoing critical initiatives in 2015.

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and notes thereto for the six months ended June 30, 2015, and with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2014 filed on the Annual Report on Form 10-K with the Securities and Exchange Commission. The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, the Company evaluates its estimates, including those related to fair value of stock awards, bad debts, contract revenue, valuation of goodwill, valuation of intangible assets, contingent consideration, deferred compensation, income taxes, uncertain tax positions, tax valuation reserves, useful lives for depreciation and amortization, and contingencies

[Table of Contents](#)

and litigation. The Company bases its estimates on historical experience, market experience, estimated future cash flows and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, but not limited to, the following statements, as well as statements that contain such words as "anticipates", "intends", "believes", "plans" and other similar expressions:

- The Company's expectations regarding the accelerated development of new and innovative products to the marketplace while lowering design and engineering costs for customers as a result of the Company's acquisitions.
- The Company's estimates regarding the expected impact on reported revenue related to the acquisition accounting treatment of deferred revenue.
- The Company's estimation that it is probable that all remaining payments will be made for contingent consideration related to the EVEN acquisition.
- The Company's assessment of the ultimate liabilities arising from various investigations, claims and legal proceedings.
- The Company's expectations regarding the outcome of its service tax audit case.
- The Company's intentions regarding its hybrid sales and distribution model.
- The Company's statement regarding the strength of the features, functionality and integrated multiphysics capabilities of its software products.
- The Company's belief that its overall performance is best measured by fiscal year results rather than by quarterly results.
- The Company's expectation that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance sales and services activities and to support its worldwide sales distribution and marketing strategies, and the business in general.
- The Company's intentions related to investments in research and development, particularly as it relates to expanding the ease of use and capabilities of its flagship products and other products within its broad portfolio of simulation software, evolution of its ANSYS® Workbench™ platform, expanding its High-Performance Computing capabilities, ANSYS® AIM™ immersive user interface, robust design and ongoing integration of acquired technology.
- The Company's intention to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries.
- The Company's plans related to future capital spending.
- The sufficiency of existing cash and cash equivalent balances to meet future working capital and capital expenditure requirements.
- The Company's belief that the best uses of its excess cash are to invest in the business and to repurchase stock in order to both offset dilution and return capital to stockholders in excess of its requirements with the goal of increasing stockholder value.
- The Company's intentions related to investments in complementary companies, products, services and technologies.
- The Company's statement regarding increased exposure to volatility of foreign exchange rates.

Forward-looking statements should not be unduly relied upon because they involve known and unknown risks, uncertainties and other factors, some of which are beyond the Company's control. The Company's actual results could differ materially from those set forth in forward-looking statements. Certain factors, among others, that might cause such a difference include risks and uncertainties disclosed in the Company's most recent Annual Report on Form 10-K, Part I, Item 1A. Information regarding new risk factors or material changes to these risk factors have been included within Part II, Item 1A of this Quarterly Report on Form 10-Q.

Results of Operations**Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014***Revenue:*

<i>(in thousands, except percentages)</i>	Three Months Ended June 30,		Change	
	2015	2014	Amount	%
Revenue:				
Lease licenses	\$ 78,011	\$ 78,708	\$ (697)	(0.9)
Perpetual licenses	62,478	61,781	697	1.1
Software licenses	140,489	140,489	—	—
Maintenance	89,883	86,196	3,687	4.3
Service	5,113	5,690	(577)	(10.1)
Maintenance and service	94,996	91,886	3,110	3.4
Total revenue	\$ 235,485	\$ 232,375	\$ 3,110	1.3

The Company's revenue in the quarter ended June 30, 2015 increased 1.3% as compared to the quarter ended June 30, 2014. The growth rate was adversely impacted by 8.3% due to a strengthening U.S. Dollar and was favorably impacted by the Company's continued investment in its global sales, support and marketing organizations. Perpetual license revenue, which is derived primarily from new sales during the quarter, increased 1.1% as compared to the prior-year quarter. Annual maintenance contracts that were sold with new perpetual licenses, along with maintenance contracts sold with new perpetual licenses in previous quarters, contributed to maintenance revenue growth of 4.3%.

With respect to revenue, on average for the quarter ended June 30, 2015, the U.S. Dollar was approximately 14.1% stronger, when measured against the Company's primary foreign currencies, than for the quarter ended June 30, 2014. The net overall strengthening resulted in decreased revenue of \$19.3 million during the quarter ended June 30, 2015, as compared with the same quarter of 2014. The impact on revenue was primarily driven by \$12.3 million, \$4.5 million, \$0.9 million and \$0.9 million of adverse impact due to a weakening Euro, Japanese Yen, British Pound and South Korean Won, respectively. The net overall strengthening also resulted in decreased operating income of \$10.5 million during the quarter ended June 30, 2015, as compared with the same quarter of 2014.

A substantial portion of the Company's license and maintenance revenue is derived from annual lease and maintenance contracts. These contracts are generally renewed on an annual basis and typically have a high rate of customer renewal. In addition to the recurring revenue base associated with these contracts, a majority of customers purchasing new perpetual licenses also purchase related annual maintenance contracts. As a result of the significant recurring revenue base, the Company's license and maintenance revenue growth rate in any period does not necessarily correlate to the growth rate of new license and maintenance contracts sold during that period. To the extent the rate of customer renewal for lease and maintenance contracts is high, incremental lease contracts, and maintenance contracts sold with new perpetual licenses, will result in license and maintenance revenue growth in constant currency. Conversely, if the rate of renewal for these contracts is adversely affected by economic or other factors, the Company's license and maintenance growth will be adversely affected over the term that the revenue for those contracts would have otherwise been recognized.

The Company is starting to experience an increased interest by its customers in enterprise license agreements that often include longer term time-based licenses involving a larger number of the Company's software products. While these arrangements typically involve a higher overall transaction price, the revenue from these contracts is typically deferred and recognized over the period of the contract, resulting in increased deferred revenue and backlog. However, to the extent these types of contracts replace sales of perpetual licenses, there could be a near term adverse impact on software license and maintenance revenue growth.

International and domestic revenues, as a percentage of total revenue, were 62.9% and 37.1%, respectively, during the quarter ended June 30, 2015, and 66.3% and 33.7%, respectively, during the quarter ended June 30, 2014. The Company derived 24.2% and 24.5% of its total revenue through the indirect sales channel for the quarters ended June 30, 2015 and 2014, respectively.

In valuing deferred revenue on the balance sheets of the Company's recent acquisitions as of their respective acquisition dates, the Company applied the fair value provisions applicable to the accounting for business combinations, resulting in a reduction of deferred revenue as compared to its historical carrying amount. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and its subsidiaries absent the acquisitions. The impacts on reported revenue were \$0.4 million and \$1.6 million for the quarters ended June 30, 2015 and 2014, respectively.

[Table of Contents](#)

The expected impact on reported revenue is \$0.3 million and \$1.4 million for the quarter ending September 30, 2015 and for the year ending December 31, 2015, respectively.

Deferred Revenue and Backlog:

Deferred revenue consists of billings made or payments received in advance of revenue recognition from lease license and maintenance agreements. The deferred revenue on the Company's condensed consolidated balance sheets does not represent the total value of annual or multi-year, noncancellable lease license and maintenance agreements. The Company's backlog represents installment billings for periods beyond the current quarterly billing cycle and customer orders received but not processed. The Company's deferred revenue and backlog as of June 30, 2015 and December 31, 2014 consist of the following:

<i>(in thousands)</i>	Balance at June 30, 2015		
	Total	Current	Long-Term
Deferred revenue	\$ 348,267	\$ 337,420	\$ 10,847
Backlog	125,742	63,350	62,392
Total	\$ 474,009	\$ 400,770	\$ 73,239

<i>(in thousands)</i>	Balance at December 31, 2014		
	Total	Current	Long-Term
Deferred revenue	\$ 345,305	\$ 332,664	\$ 12,641
Backlog	122,985	41,390	81,595
Total	\$ 468,290	\$ 374,054	\$ 94,236

Revenue associated with deferred revenue and backlog that is expected to be recognized in the subsequent twelve months is classified as current in the table above.

Constant Currency Impact:

The tables below reflect the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. Amounts included in the discussion that follows each table are provided in constant currency. The impact of foreign exchange translation on each expense line is provided separately, where material.

Cost of Sales and Gross Profit:

<i>(in thousands, except percentages)</i>	Three Months Ended June 30,				Change	
	2015		2014			
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Cost of sales:						
Software licenses	\$ 6,950	3.0	\$ 7,364	3.2	\$ (414)	(5.6)
Amortization	9,743	4.1	9,406	4.0	337	3.6
Maintenance and service	21,092	9.0	21,908	9.4	(816)	(3.7)
Total cost of sales	37,785	16.0	38,678	16.6	(893)	(2.3)
Gross profit	\$ 197,700	84.0	\$ 193,697	83.4	\$ 4,003	2.1

Software Licenses: The decrease in the cost of software licenses was primarily due to the following:

- Decreased stock-based compensation of \$0.3 million.
- Cost reduction from foreign exchange translation of \$0.3 million due to a stronger U.S. Dollar.

Amortization: The increase in amortization expense was primarily due to an increase in amortization of trade names.

Maintenance and Service: The decrease in maintenance and service costs was primarily due to a \$2.4 million cost reduction related to foreign exchange translation, partially offset by an increase in severance costs of \$0.8 million and other headcount-related costs of \$0.5 million.

The improvement in gross profit was a result of the increase in revenue and the decrease in related cost of sales.

Operating Expenses:

(in thousands, except percentages)	Three Months Ended June 30,					
	2015		2014		Change	
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Operating expenses:						
Selling, general and administrative	\$ 63,524	27.0	\$ 62,280	26.8	\$ 1,244	2.0
Research and development	42,646	18.1	42,098	18.1	548	1.3
Amortization	5,035	2.1	5,787	2.5	(752)	(13.0)
Total operating expenses	\$ 111,205	47.2	\$ 110,165	47.4	\$ 1,040	0.9

Selling, General and Administrative: The increase in selling, general and administrative costs was primarily due to the following:

- Increased salaries and other headcount-related costs, including incentive compensation, of \$3.8 million, primarily due to an increase in headcount.
- Increased third-party commissions of \$1.3 million.

These increases were partially offset by a \$4.0 million cost reduction related to foreign exchange translation.

The Company anticipates that it will continue to make targeted investments in its global sales and marketing organization and its global business infrastructure to enhance sales and services activities and to support its worldwide sales distribution and marketing strategies, and the business in general.

Research and Development: The increase in research and development costs was primarily due to the following:

- Increased salaries and other headcount-related costs of \$2.0 million.
- Increased SpaceClaim-related research and development expenses of \$0.4 million, primarily as a result of three months of SpaceClaim activity in the current year as compared to two months of activity in the prior year.

These increases were offset by a \$1.7 million cost reduction related to foreign exchange translation and decreased stock-based compensation of \$0.7 million.

The Company has traditionally invested significant resources in research and development activities and intends to continue to make investments in this area, particularly as it relates to expanding the ease of use and capabilities of its flagship products and other products within its broad portfolio of simulation software, evolution of its ANSYS® Workbench™ platform, expanding its High-Performance Computing capabilities, ANSYS® AIM™ immersive user interface, robust design and ongoing integration of acquired technology.

Amortization: The decrease in amortization expense was primarily due to a net decrease in amortization of acquired customer lists and a cost reduction related to foreign exchange translation.

[Table of Contents](#)

Interest Expense: The Company's interest expense consists of the following:

	Three Months Ended	
	June 30, 2015	June 30, 2014
<i>(in thousands)</i>		
Discounted obligations	\$ 97	\$ 162
Other	25	19
Total interest expense	\$ 122	\$ 181

Interest Income: Interest income for the quarter ended June 30, 2015 was \$0.8 million as compared to \$0.7 million for the quarter ended June 30, 2014. Interest income increased as a result of an increase in the Company's average invested cash balances and the average rate of return on those balances.

Other Income (Expense), net: The Company's other income (expense) consists of the following:

	Three Months Ended	
	June 30, 2015	June 30, 2014
<i>(in thousands)</i>		
Foreign currency losses, net	\$ (96)	\$ (215)
Noncontrolling interest in loss	—	38
Other	187	(2)
Total other income (expense), net	\$ 91	\$ (179)

Income Tax Provision: The Company recorded income tax expense of \$24.9 million and had income before income taxes of \$87.3 million for the quarter ended June 30, 2015. During the quarter ended June 30, 2014, the Company recorded income tax expense of \$20.8 million and had income before income taxes of \$83.9 million. The effective tax rates were 28.6% and 24.9% for the second quarters of 2015 and 2014, respectively.

The increase in the effective tax rate is primarily due to tax benefits related to restructuring in a foreign jurisdiction and the reversal of uncertain tax benefits that occurred in 2014. These benefits did not reoccur in 2015. When compared to the federal and state combined statutory rate, the effective tax rates for the quarters ended June 30, 2015 and 2014 were favorably impacted by the domestic manufacturing deduction and tax benefits associated with the merger of the Company's Japan subsidiaries in 2010. The quarterly benefit of approximately \$3.1 million related to the merger of the Company's Japan subsidiaries will expire on September 30, 2015. The rates were also favorably impacted by the recurring item of lower statutory tax rates in many of the Company's foreign jurisdictions.

Net Income: The Company's net income in the second quarter of 2015 was \$62.3 million as compared to net income of \$63.0 million in the second quarter of 2014. Diluted earnings per share was \$0.68 in the second quarter of 2015 and \$0.67 in the second quarter of 2014. The weighted average shares used in computing diluted earnings per share were 91.7 million and 94.3 million in the second quarters of 2015 and 2014, respectively.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014Revenue:

<i>(in thousands, except percentages)</i>	Six Months Ended June 30,		Change	
	2015	2014	Amount	%
Revenue:				
Lease licenses	\$ 156,249	\$ 157,520	\$ (1,271)	(0.8)
Perpetual licenses	109,209	109,398	(189)	(0.2)
Software licenses	265,458	266,918	(1,460)	(0.5)
Maintenance	177,534	169,229	8,305	4.9
Service	10,274	11,499	(1,225)	(10.7)
Maintenance and service	187,808	180,728	7,080	3.9
Total revenue	\$ 453,266	\$ 447,646	\$ 5,620	1.3

The Company's revenue in the six months ended June 30, 2015 increased 1.3% as compared to the six months ended June 30, 2014. The growth rate was adversely impacted by 7.8% due to a strengthening U.S. Dollar and was favorably impacted by the Company's continued investment in its global sales, support and marketing organizations. Annual maintenance contracts that were sold with new perpetual licenses, along with maintenance contracts sold with new perpetual licenses in previous quarters, contributed to maintenance revenue growth of 4.9%. Service revenue decreased 10.7% as compared to the six months ended June 30, 2014, primarily due to the impact of a stronger U.S. Dollar, as well as a smaller decrease in consulting services.

With respect to revenue, on average for the six months ended June 30, 2015, the U.S. Dollar was approximately 13.4% stronger, when measured against the Company's primary foreign currencies, than for the six months ended June 30, 2014. The net overall strengthening resulted in decreased revenue of \$34.8 million during the six months ended June 30, 2015, as compared with the six months ended June 30, 2014. The impact on revenue was primarily driven by \$22.5 million, \$8.5 million, \$1.7 million and \$1.0 million of adverse impact due to a weakening Euro, Japanese Yen, British Pound and South Korean Won, respectively. The net overall strengthening also resulted in decreased operating income of \$18.8 million during the six months ended June 30, 2015, as compared with the six months ended June 30, 2014.

International and domestic revenues, as a percentage of total revenue, were 62.8% and 37.2%, respectively, during the six months ended June 30, 2015, and 66.1% and 33.9%, respectively, during the six months ended June 30, 2014. The Company derived 24.2% and 24.0% of its total revenue through the indirect sales channel for the six months ended June 30, 2015 and 2014, respectively.

In valuing deferred revenue on the balance sheets of the Company's recent acquisitions as of their respective acquisition dates, the Company applied the fair value provisions applicable to the accounting for business combinations, resulting in a reduction of deferred revenue as compared to its historical carrying amount. As a result, the Company's post-acquisition revenue will be less than the sum of what would have otherwise been reported by ANSYS and its subsidiaries absent the acquisitions. The impacts on reported revenue were \$1.0 million and \$2.8 million for the six months ended June 30, 2015 and 2014, respectively.

Constant Currency Impact:

The tables below reflect the Company's operating results as presented on the condensed consolidated statements of income, which are inclusive of foreign currency translation impacts. Amounts included in the discussion that follows each table are provided in constant currency. The impact of foreign exchange translation on each expense line is provided separately, where material.

Cost of Sales and Gross Profit:

(in thousands, except percentages)	Six Months Ended June 30,					
	2015		2014		Change	
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Cost of sales:						
Software licenses	\$ 14,159	3.1	\$ 14,508	3.2	\$ (349)	(2.4)
Amortization	19,100	4.2	18,721	4.2	379	2.0
Maintenance and service	40,414	8.9	43,194	9.6	(2,780)	(6.4)
Total cost of sales	73,673	16.3	76,423	17.1	(2,750)	(3.6)
Gross profit	\$ 379,593	83.7	\$ 371,223	82.9	\$ 8,370	2.3

Software Licenses: The decrease in the cost of software licenses was primarily due to the following:

- Cost reduction related to foreign exchange translation of \$0.5 million.
- Decreased stock-based compensation of \$0.4 million.
- Decreased incentive compensation of \$0.4 million.

These decreases were partially offset by increased third-party royalties of \$0.3 million and the SpaceClaim-related cost of software licenses of \$0.3 million, primarily as a result of six months of SpaceClaim activity in the current year as compared to two months of activity in the prior year.

Amortization: The increase in amortization expense was primarily due to an increase in amortization of trade names, partially offset by a cost reduction related to foreign exchange translation.

Maintenance and Service: The decrease in maintenance and service costs was primarily due to a \$4.4 million cost reduction from foreign exchange translation, partially offset by an increase in severance costs of \$0.8 million.

The improvement in gross profit was a result of the increase in revenue and the decrease in related cost of sales.

Operating Expenses:

(in thousands, except percentages)	Six Months Ended June 30,					
	2015		2014		Change	
	Amount	% of Revenue	Amount	% of Revenue	Amount	%
Operating expenses:						
Selling, general and administrative	\$ 120,273	26.5	\$ 115,830	25.9	\$ 4,443	3.8
Research and development	82,655	18.2	82,218	18.4	437	0.5
Amortization	10,112	2.2	10,581	2.4	(469)	(4.4)
Total operating expenses	\$ 213,040	47.0	\$ 208,629	46.6	\$ 4,411	2.1

Selling, General and Administrative: The increase in selling, general and administrative costs was primarily due to the following:

- Increased salaries and other headcount-related costs of \$6.2 million, primarily due to an increase in headcount.
- Increased third-party commissions of \$1.6 million.
- Increased SpaceClaim-related selling, general and administrative expenses of \$1.4 million, primarily as a result of six months of SpaceClaim activity in the current year as compared to two months of activity in the prior year.
- Increased business travel and meals of \$0.9 million.
- Increased stock-based compensation of \$0.8 million.

These increases were partially offset by a \$7.2 million cost reduction related to foreign exchange translation.

[Table of Contents](#)

Research and Development: The increase in research and development costs was primarily due to the following:

- Increased SpaceClaim-related research and development expenses of \$1.7 million, primarily as a result of six months of SpaceClaim activity in the current year as compared to two months of activity in the prior year.
- Increased salaries and other headcount-related costs, partially offset by decreased incentive compensation, netting to \$0.8 million.
- Increased facilities and IT-related maintenance of \$0.7 million.
- Increased consulting expenses of \$0.6 million.

These increases were offset by a \$3.1 million cost reduction related to foreign exchange translation and decreased stock-based compensation of \$0.8 million.

Amortization: The decrease in amortization expense was primarily due to a cost reduction related to foreign exchange translation and a net decrease in amortization of acquired contract backlog, partially offset by a net increase in amortization of acquired customer lists.

Interest Expense: The Company's interest expense consists of the following:

(in thousands)	Six Months Ended	
	June 30, 2015	June 30, 2014
Discounted obligations	\$ 224	\$ 358
Other	52	71
Total interest expense	\$ 276	\$ 429

Interest Income: Interest income for the six months ended June 30, 2015 was \$1.5 million as compared to \$1.6 million for the six months ended June 30, 2014. Interest income decreased as a result of a decrease in the Company's average invested cash balances and the average rate of return on those balances.

Other Income (Expense), net: The Company's other income (expense) consists of the following:

(in thousands)	Six Months Ended	
	June 30, 2015	June 30, 2014
Foreign currency gains (losses), net	\$ 666	\$ (388)
Noncontrolling interest in loss	—	48
Other	192	(37)
Total other income (expense), net	\$ 858	\$ (377)

Income Tax Provision: The Company recorded income tax expense of \$50.1 million and had income before income taxes of \$168.6 million for the six months ended June 30, 2015. During the six months ended June 30, 2014, the Company recorded income tax expense of \$43.8 million and had income before income taxes of \$163.3 million. The effective tax rates were 29.7% and 26.8% for the six months ended June 30, 2015 and 2014, respectively.

The increase in the effective tax rate is primarily due to tax benefits related to restructuring in a foreign jurisdiction and the reversal of uncertain tax benefits that occurred in 2014. These benefits did not reoccur in 2015. When compared to the federal and state combined statutory rate, the effective tax rates for the six months ended June 30, 2015 and 2014 were favorably impacted by the domestic manufacturing deduction and tax benefits associated with the merger of the Company's Japan subsidiaries in 2010. The quarterly benefit of approximately \$3.1 million related to the merger of the Company's Japan subsidiaries will expire on September 30, 2015. The rates were also favorably impacted by the recurring item of lower statutory tax rates in many of the Company's foreign jurisdictions.

Net Income: The Company's net income for the six months ended June 30, 2015 was \$118.5 million as compared to net income of \$119.6 million for the six months ended June 30, 2014. Diluted earnings per share was \$1.29 for the six months ended June 30, 2015 and \$1.26 for the six months ended June 30, 2014. The weighted average shares used in computing diluted earnings per share were 91.9 million and 94.6 million for the six months ended June 30, 2015 and 2014, respectively.

Non-GAAP Results

The Company provides non-GAAP revenue, non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share as supplemental measures to GAAP measures regarding the Company's operational performance. These financial measures exclude the impact of certain items and, therefore, have not been calculated in accordance with GAAP. A detailed explanation and a reconciliation of each non-GAAP financial measure to its most comparable GAAP financial measure are described below.

<i>(in thousands, except percentages and per share data)</i>	Three Months Ended					
	June 30, 2015			June 30, 2014		
	As Reported	Adjustments	Non-GAAP Results	As Reported	Adjustments	Non-GAAP Results

Non-GAAP Measures

Management uses non-GAAP financial measures (a) to evaluate the Company's historical and prospective financial performance as well as its performance relative to its competitors, (b) to set internal sales targets and spending budgets, (c) to allocate resources, (d) to measure operational profitability and the accuracy of forecasting, (e) to assess financial discipline over operational expenditures and (f) as an important factor in determining variable compensation for management and its employees. In addition, many financial analysts that follow the Company focus on and publish both historical results and future projections based on non-GAAP financial measures. The Company believes that it is in the best interest of its investors to provide this information to analysts so that they accurately report the non-GAAP financial information. Moreover, investors have historically requested and the Company has historically reported these non-GAAP financial measures as a means of providing consistent and comparable information with past reports of financial results.

While management believes that these non-GAAP financial measures provide useful supplemental information to investors, there are limitations associated with the use of these non-GAAP financial measures. These non-GAAP financial measures are not prepared in accordance with GAAP, are not reported by all of the Company's competitors and may not be directly comparable to similarly titled measures of the Company's competitors due to potential differences in the exact method of calculation. The Company compensates for these limitations by using these non-GAAP financial measures as supplements to GAAP financial measures and by reviewing the reconciliations of the non-GAAP financial measures to their most comparable GAAP financial measures.

The adjustments to these non-GAAP financial measures, and the basis for such adjustments, are outlined below:

Acquisition accounting for deferred revenue and its related tax impact. Historically, the Company has consummated acquisitions in order to support its strategic and other business objectives. In accordance with the fair value provisions applicable to the accounting for business combinations, acquired deferred revenue is often recorded on the opening balance sheet at an amount that is lower than the historical carrying value. Although this purchase accounting requirement has no impact on the Company's business or cash flow, it adversely impacts the Company's reported GAAP revenue in the reporting periods following an acquisition. In order to provide investors with financial information that facilitates comparison of both historical and future results, the Company provides non-GAAP financial measures which exclude the impact of the acquisition accounting adjustment. The Company believes that this non-GAAP financial adjustment is useful to investors because it allows investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past and future reports of financial results of the Company as the revenue reduction related to acquired deferred revenue will not recur when related annual lease licenses and software maintenance contracts are renewed in future periods.

Amortization of intangibles from acquisitions and its related tax impact. The Company incurs amortization of intangibles, included in its GAAP presentation of amortization expense, related to various acquisitions it has made in recent years. Management excludes these expenses and their related tax impact for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company because these costs are fixed at the time of an acquisition, are then amortized over a period of several years after the acquisition and generally cannot be changed or influenced by management after the acquisition. Accordingly, management does not consider these expenses for purposes of evaluating the performance of the Company during the applicable time period after the acquisition, and it excludes such expenses when making decisions to allocate resources. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the effectiveness of the methodology and information used by management in its financial and operational decision-making, and (b) compare past reports of financial results of the Company as the Company has historically reported these non-GAAP financial measures.

Stock-based compensation expense and its related tax impact. The Company incurs expense related to stock-based compensation included in its GAAP presentation of cost of software licenses; cost of maintenance and service; research and development expense and selling, general and administrative expense. Although stock-based compensation is an expense of the Company and viewed as a form of compensation, management excludes these expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company. Specifically, the Company excludes stock-based compensation during its annual budgeting process and its quarterly and annual assessments of the Company's and management's performance. The annual budgeting process is the primary mechanism whereby the Company allocates resources to various initiatives and operational requirements. Additionally, the annual review by the board of directors during which it compares the Company's historical business model and profitability to the planned business model and profitability for the forthcoming year excludes the impact of stock-based compensation. In evaluating the performance of senior management and department managers, charges related to stock-based compensation are excluded from expenditure and profitability results. In fact, the Company records stock-based compensation expense into a stand-alone cost center for which no single operational manager is responsible or accountable. In this way, management is able to review, on a period-to-period basis, each manager's performance and assess financial discipline over operational expenditures without the effect of stock-based compensation. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

Transaction costs related to business combinations. The Company incurs expenses for professional services rendered in connection with business combinations, which are included in its GAAP presentation of selling, general and administrative expense. These expenses are generally not tax-deductible. Management excludes these acquisition-related transaction expenses for the purpose of calculating non-GAAP operating income, non-GAAP operating profit margin, non-GAAP net income and non-GAAP diluted earnings per share when it evaluates the continuing operational performance of the Company, as it generally would not have otherwise incurred these expenses in the periods presented as a part of its continuing operations. The Company believes that these non-GAAP financial measures are useful to investors because they allow investors to (a) evaluate the Company's operating results and the effectiveness of the methodology used by management to review the Company's operating results, and (b) review historical comparability in the Company's financial reporting as well as comparability with competitors' operating results.

[Table of Contents](#)

Non-GAAP financial measures are not in accordance with, or an alternative for, GAAP. The Company's non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP.

The Company has provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures as listed below:

<u>GAAP Reporting Measure</u>	<u>Non-GAAP Reporting Measure</u>
Revenue	Non-GAAP Revenue
Operating Income	Non-GAAP Operating Income
Operating Profit Margin	Non-GAAP Operating Profit Margin
Net Income	Non-GAAP Net Income
Diluted Earnings Per Share	Non-GAAP Diluted Earnings Per Share

Liquidity and Capital Resources

<i>(in thousands)</i>	June 30, 2015	December 31, 2014	Change
Cash, cash equivalents and short-term investments	\$ 841,170	\$ 788,778	\$ 52,392
Working capital	\$ 680,045	\$ 645,394	\$ 34,651

Cash, Cash Equivalents and Short-Term Investments

Cash and cash equivalents consist primarily of highly liquid investments such as money market mutual funds and deposits held at major banks. Short-term investments consist primarily of deposits held by certain foreign subsidiaries of the Company with original maturities of three months to one year. The following table presents the Company's foreign and domestic holdings of cash, cash equivalents and short-term investments as of June 30, 2015 and December 31, 2014:

<i>(in thousands)</i>	June 30, 2015	% of Total	December 31, 2014	% of Total
Domestic	\$ 601,338	71.5%	\$ 556,328	70.5%
Foreign	239,832	28.5%	232,450	29.5%
Total	<u>\$ 841,170</u>		<u>\$ 788,778</u>	

If the foreign balances were repatriated to the U.S., they would be subject to domestic tax, resulting in a tax obligation in the period of repatriation. In general, it is the practice and intention of the Company to repatriate previously taxed earnings and to reinvest all other earnings of its non-U.S. subsidiaries. The amount of cash, cash equivalents and short-term investments held by foreign subsidiaries is subject to translation adjustments caused by changes in foreign currency exchange rates as of the end of each respective reporting period, the offset to which is recorded in accumulated other comprehensive loss on the Company's condensed consolidated balance sheet.

Cash Flows from Operating Activities

<i>(in thousands)</i>	Six Months Ended June 30,		Change
	2015	2014	
Net cash provided by operating activities	\$ 180,532	\$ 211,472	\$ (30,940)

Net cash provided by operating activities decreased during the current fiscal year due to decreased net cash flows from operating assets and liabilities of \$37.2 million, primarily due to a \$26.8 million refund received in 2014 related to the Company's 2009 and 2010 federal income tax years. These amounts were partially offset by increased net income (net of non-cash operating adjustments) of \$6.3 million.

Cash Flows from Investing Activities

<i>(in thousands)</i>	Six Months Ended June 30,		Change
	2015	2014	
Net cash used in investing activities	\$ (18,169)	\$ (114,568)	\$ 96,399

Net cash used in investing activities decreased during the current fiscal year due primarily to decreased acquisition-related net cash outlays of \$92.1 million and decreased capital expenditures of \$4.2 million. The Company currently plans capital spending of \$20 million to \$25 million for the 2015 fiscal year as compared to \$26.0 million that was spent in 2014. The level of spending will depend on various factors, including growth of the business and general economic conditions.

Cash Flows from Financing Activities

<i>(in thousands)</i>	Six Months Ended June 30,		Change
	2015	2014	
Net cash used in financing activities	\$ (98,903)	\$ (58,698)	\$ (40,205)

Net cash used in financing activities increased during the current fiscal year due primarily to increased stock repurchases of \$56.6 million, partially offset by increased proceeds from shares issued for stock-based compensation of \$15.5 million.

Other Cash Flow Information

On July 1, 2015, the Company completed the acquisition of Gear, a provider of big data analytics used to solve problems confronting next-generation semiconductor and electronic system designs. Under the terms of the agreement, the Company acquired Gear for a purchase price of \$30 million in cash and equity, plus retention vehicles and an adjustment for working capital. The operating results of Gear will be included in the Company's consolidated financial statements from the date of acquisition and, accordingly, Gear's operating results are not included in the financial results presented in this Quarterly Report on Form 10-Q. The acquisition will be accounted for as a business combination.

On February 3, 2015, the Company acquired certain assets and liabilities of NTI, a leading developer of in-flight icing simulation software, for a purchase price of approximately \$10.4 million in cash. The operating results of NTI have been included in the Company's condensed consolidated financial statements since the date of acquisition.

The Company believes that existing cash and cash equivalent balances of \$840.4 million, together with cash generated from operations, will be sufficient to meet the Company's working capital and capital expenditure requirements through the next twelve months. The Company's cash requirements in the future may also be financed through additional equity or debt financings. There can be no assurance that such financings can be obtained on favorable terms, if at all.

Under the Company's stock repurchase program, the Company repurchased shares during the six months ended June 30, 2015 and 2014, as follows:

<i>(in thousands, except shares and per share data)</i>	Six Months Ended	
	June 30, 2015	June 30, 2014
Number of shares repurchased	1,542,911	970,200
Average price paid per share	\$ 83.42	\$ 74.31
Total cost	\$ 128,716	\$ 72,096

In February 2015, the Company's Board of Directors increased the number of shares authorized for repurchase to a total of 5.0 million shares under the program. As of June 30, 2015, 4.4 million shares remained available for repurchase under the Company's stock repurchase program.

The Company's repurchase authorization does not have an expiration date and the pace of the repurchase activity will depend on factors such as working capital needs, cash requirements for acquisitions, the Company's stock price, and economic and market conditions. The Company's stock repurchases may be effected from time to time through open market purchases or pursuant to a Rule 10b5-1 plan.

[Table of Contents](#)

The Company continues to generate positive cash flows from operating activities and believes that the best uses of its excess cash are to invest in the business and to repurchase stock in order to both offset dilution and return capital to stockholders in excess of its requirements with the goal of increasing stockholder value. Additionally, the Company has in the past, and expects in the future, to acquire or make investments in complementary companies, products, services and technologies. Any future acquisitions may be funded by available cash and investments, cash generated from operations, credit facilities or the issuance of additional securities.

Off-Balance-Sheet Arrangements

The Company does not have any special-purpose entities or off-balance-sheet financing.

Contractual Obligations

There were no material changes to the Company's significant contractual obligations during the six months ended June 30, 2015 as compared to those previously reported in "Management's Discussion and Analysis of Financial Condition and Results of Operations" within the Company's most recent Annual Report on Form 10-K.

Critical Accounting Policies and Estimates

During the first quarter of 2015, the Company completed the annual impairment test for goodwill and indefinite-lived intangible assets and determined that these assets had not been impaired as of the test date, January 1, 2015. The Company tested a previously unamortized trade name that was determined to have a finite life for impairment during the first quarter of 2015 and determined that its fair value exceeded its carrying value, so no impairment was recorded. No other events or circumstances changed during the six months ended June 30, 2015 that would indicate that the fair values of the Company's reporting unit or indefinite-lived intangible asset are below their carrying amounts.

No significant changes have occurred to the Company's critical accounting policies and estimates as previously reported within "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's most recent Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Income Rate Risk. Changes in the overall level of interest rates affect the interest income that is generated from the Company's cash, cash equivalents and short-term investments. For the three and six months ended June 30, 2015, total interest income was \$0.8 million and \$1.5 million, respectively. Cash and cash equivalents consist primarily of highly liquid investments such as money market mutual funds and deposits held at major banks.

Foreign Currency Transaction Risk. As the Company continues to expand its business presence in international regions, the portion of its revenue, expenses, cash, accounts receivable and payment obligations denominated in foreign currencies continues to increase. As a result, changes in currency exchange rates will affect the Company's financial position, results of operations and cash flows. The Company is most impacted by movements in and among the Euro, Japanese Yen, British Pound, South Korean Won, Canadian Dollar, Indian Rupee and U.S. Dollar.

With respect to revenue, on average for the quarter ended June 30, 2015, the U.S. Dollar was approximately 14.1% stronger, when measured against the Company's primary foreign currencies, than for the quarter ended June 30, 2014. The net overall strengthening resulted in decreased revenue of \$19.3 million during the quarter ended June 30, 2015, as compared with the same quarter of 2014. The impact on revenue was primarily driven by \$12.3 million, \$4.5 million, \$0.9 million and \$0.9 million of adverse impact due to a weakening Euro, Japanese Yen, British Pound and South Korean Won, respectively. The net overall strengthening also resulted in decreased operating income of \$10.5 million during the quarter ended June 30, 2015, as compared with the same quarter of 2014.

With respect to revenue, on average for the six months ended June 30, 2015, the U.S. Dollar was approximately 13.4% stronger, when measured against the Company's primary foreign currencies, than for the six months ended June 30, 2014. The net overall strengthening resulted in decreased revenue of \$34.8 million during the six months ended June 30, 2015, as compared with the six months ended June 30, 2014. The impact on revenue was primarily driven by \$22.5 million, \$8.5 million, \$1.7 million and \$1.0 million of adverse impact due to a weakening Euro, Japanese Yen, British Pound and South Korean Won, respectively. The net overall strengthening also resulted in decreased operating income of \$18.8 million during the six months ended June 30, 2015, as compared with the six months ended June 30, 2014.

The Company has foreign-currency-denominated liabilities. In order to provide a natural hedge to mitigate the foreign currency exchange risk on certain of these liabilities, the Company will purchase foreign currencies and hold these currencies in cash until the liabilities are settled.

The most significant currency impacts on revenue and operating income were primarily attributable to U.S. Dollar exchange rate changes against the British Pound, Euro and Japanese Yen as reflected in the charts below:

As of	Period-End Exchange Rates		
	GBP/USD	EUR/USD	USD/JPY
June 30, 2014	1.711	1.369	101.317
December 31, 2014	1.557	1.210	119.703
June 30, 2015	1.571	1.114	122.504

Three Months Ended	Average Exchange Rates		
	GBP/USD	EUR/USD	USD/JPY
March 31, 2014	1.655	1.370	102.753
June 30, 2014	1.684	1.371	102.137
September 30, 2014	1.669	1.325	103.969
December 31, 2014	1.583	1.249	114.408
March 31, 2015	1.515	1.127	119.163
June 30, 2015	1.533	1.107	121.336

No other material change has occurred in the Company's market risk subsequent to December 31, 2014.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended, or the Exchange Act, the Company has evaluated, with the participation of management, including the Chief Executive Officer and the Chief Financial Officer, the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that such disclosure controls and procedures are effective, as defined in Rule 13a-15(e) of the Exchange Act.

The Company has a Disclosure Review Committee to assist in the quarterly evaluation of the Company's internal disclosure controls and procedures and in the review of the Company's periodic filings under the Exchange Act. The membership of the Disclosure Review Committee consists of the Company's Chief Executive Officer, Chief Financial Officer, Global Controller, General Counsel, Senior Director of Investor Relations and Global Insurance, Vice President of Worldwide Sales and Support, Vice President of Human Resources, Vice President of Marketing and Chief Product Officer. This committee is advised by external counsel, particularly on SEC-related matters. Additionally, other members of the Company's global management team advise the committee with respect to disclosure via a sub-certification process.

The Company believes, based on its knowledge, that the financial statements and other financial information included in this report fairly present, in all material respects, the financial condition, results of operations and cash flows of the Company as of and for the periods presented in this report. The Company is committed to both a sound internal control environment and to good corporate governance.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

From time to time, the Company reviews the disclosure controls and procedures and may make changes to enhance their effectiveness and to ensure that the Company's systems evolve with its business.

Changes in Internal Control. There were no changes in the Company's internal control over financial reporting that occurred during the three months ended June 30, 2015 that materially affected, or were reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION**Item 1. Legal Proceedings**

The Company is subject to various investigations, claims and legal proceedings that arise in the ordinary course of business, including commercial disputes, labor and employment matters, tax audits, alleged infringement of intellectual property rights and other matters. In the opinion of the Company, the resolution of pending matters is not expected to have a material, adverse effect on the Company's consolidated results of operations, cash flows or financial position. However, each of these matters is subject to various uncertainties and it is possible that an unfavorable resolution of one or more of these proceedings could, in the future, materially affect the Company's results of operations, cash flows or financial position.

Item 1A. Risk Factors

The Company cautions investors that its performance (and, therefore, any forward-looking statement) is subject to risks and uncertainties. Various important factors may cause the Company's future results to differ materially from those projected in any forward-looking statement. These factors were disclosed in, but are not limited to, the items within the Company's most recent Annual Report on Form 10-K, Part I, Item 1A. No material changes have occurred regarding the Company's risk factors subsequent to December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**(c) Issuer Purchases of Equity Securities**

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under Plans or Programs ⁽¹⁾
April 1 - April 30, 2015	—	\$ —	—	4,423,419
May 1 - May 31, 2015	36,200	\$ 85.32	36,200	4,387,219
June 1 - June 30, 2015	—	\$ —	—	4,387,219
Total	36,200	\$ 85.32	36,200	4,387,219

⁽¹⁾ The Company initially announced its stock repurchase program in February 2000, and subsequently announced various amendments to the program. The most recent amendment to the program, authorizing the repurchase of up to 5,000,000 shares, was approved by the Company's Board of Directors in February 2015. There is no expiration date to this amendment.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Canonsburg, PA 15317

We have reviewed, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the unaudited interim financial information of ANSYS, Inc. and subsidiaries for the periods ended June 30, 2015, and 2014, as indicated in our report dated August 5, 2015; because we did not perform an audit, we expressed no opinion on that information.

We are aware that our report referred to above, which is included in your Quarterly Report on Form 10-Q for the quarter ended June 30, 2015, is incorporated by reference in Registration Statement Nos. 333-08613, 333-69506, 333-110728, 333-137274, 333-152765, 333-174670, 333-177030, and 333-196393 on Form S-8.

We also are aware that the aforementioned report, pursuant to Rule 436(c) under the Securities Act of 1933, is not considered a part of the Registration Statement prepared or certified by an accountant or a report prepared or certified by an accountant within the meaning of Sections 7 and 11 of that Act.

Pittsburgh, Pennsylvania

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, James E. Cashman III, certify that:

1. I have reviewed this quarterly report on Form 10-Q of ANSYS, Inc. (“ANSYS”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of ANSYS as of, and for, the periods presented in this report;
4. ANSYS’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for ANSYS and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to ANSYS, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of ANSYS’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in ANSYS’s internal control over financial reporting that occurred during ANSYS’s most recent fiscal quarter (ANSYS’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, ANSYS’s internal control over financial reporting; and
5. ANSYS’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to ANSYS’s auditors and the audit committee of ANSYS’s board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect ANSYS’s ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in ANSYS’s internal control over financial reporting.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of ANSYS, Inc. (the "Company") on Form 10-Q for the quarter ended June 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, James E. Cashman III, President and Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is provided solely pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and shall not be deemed to be part of the Report or filed for any purpose whatsoever.

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of ANSYS, Inc. (the "Company") on Form 10-Q for the quarter ended June 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Maria T. Shields, Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) The Report fully complies with requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is provided solely pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and shall not be deemed to be part of the Report or filed for any purpose whatsoever.
