Regal's Board of Directors also today declared a cash dividend of \$0.22 per Class A and Class B common share, payable on September 15, 2014, to stockholders of record on September 5, 2014. The Company intends to pay a regular quarterly dividend for the foreseeable future at the discretion of the Board of Directors depending on available cash, anticipated cash needs, overall financial condition, loan agreement restrictions, future prospects for earnings and cash flows as well as other relevant factors.

"In a challenging summer box office environment, the growth in our average concession sales per patron and our focus on controlling variable costs helped drive Adjusted EBITDA margin of over 19%," stated Amy Miles, CEO of Regal Entertainment Group. "With year-to-date industry box office results on par with last year's record setting pace and an exciting film slate in the back half of the year, we are optimistic regarding the potential for further box office success in 2014."

(1) We have included adjusted diluted earnings per share, which is diluted earnings per share excluding loss on extinguishment of debt, net of related tax effects, gain on sale of available for sale securities, net of related tax effects, and net loss on disposal and impairment of operating assets, net of related tax effects, because we believe it provides investors with a useful industry comparative and is a financial measure used by management to assess the performance of our Company.

(2) Represents reported weighted average number of diluted shares outstanding for purposes of computing diluted earnings per share and adjusted diluted

earnings per share for the quarters and two quarters ended June 26, 2014 and June 27, 2013.

- (3) Adjusted EBITDA (earnings before interest, taxes, depreciation and amortization expense, net loss on disposal and impairment of operating assets, share-based compensation expense, loss on extinguishment of debt and noncontrolling interest, net of tax and other, net) was approximately \$146.6 million for the quarter ended June 26, 2014. We believe EBITDA, Adjusted EBITDA and Free Cash Flow provide useful measures of cash flows from operations for our investors because EBITDA, Adjusted EBITDA and Free Cash Flow are industry comparative measures of cash flows generated by our operations and because they are financial measures used by management to assess the liquidity of our Company. EBITDA, Adjusted EBITDA and Free Cash Flow are not measurements of liquidity under U.S. generally accepted accounting principles and should not be considered in isolation or construed as a substitute for other operations data or cash flow data prepared in accordance with U.S. generally accepted accounting principles for purposes of analyzing our liquidity. In addition, not all funds depicted by EBITDA, Adjusted EBITDA and Free Cash Flow are available for management's discretionary use. For example, a portion of such funds are subject to contractual restrictions and functional requirements to pay debt service, fund necessary capital expenditures and meet other commitments from time to time as described in more detail in the Company's 2013 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 24, 2014. EBITDA, Adjusted EBITDA and Free Cash Flow, as calculated, may not be comparable to similarly titled measures reported by other companies.
