- (1) We have included adjusted diluted earnings per share, which is diluted earnings per share excluding loss on extinguishment of debt, net of related tax effects, gain on sale of available for sale securities, net of related tax effects, and net loss on disposal and impairment of operating assets and other, net of related tax effects, because we believe it provides investors with a useful industry comparative and is a financial measure used by management to assess the performance of our Company.
- (2) Represents reported weighted average number of diluted shares outstanding for purposes of computing diluted earnings per share and adjusted diluted earnings per share for the quarters and two quarters ended June 30, 2015 and June 26, 2014.
- (3) Adjusted EBITDA (earnings adjusted for interest, taxes, depreciation and amortization expense, net loss on disposal and impairment of operating assets and other, share-based compensation expense, loss on extinguishment of debt, earnings recognized from NCM, cash distributions from NCM, cash distributions from DCIP and noncontrolling interest, net of tax and other, net) was approximately \$177.3 million for the quarter ended June 30, 2015. Prior to 2015, earnings recognized from NCM were included in Adjusted EBITDA. However, we believe that including cash distributions of NCM in our Adjusted EBITDA measure more accurately reflects our liquidity. Accordingly, the Adjusted EBITDA computation for all periods presented herein reflects such cash distributions received from NCM. We believe EBITDA, Adjusted EBITDA and Free Cash Flow provide useful measures of cash flows from operations for our investors because EBITDA, Adjusted EBITDA and Free Cash Flow are industry comparative measures of cash flows generated by our operations and because they are financial measures used by management to assess the liquidity of our Company. EBITDA, Adjusted EBITDA and Free Cash Flow are not measurements of liquidity under U.S. generally accepted accounting principles and should not be considered in isolation or construed as a substitute for other operations data or cash flow data prepared in accordance with U.S. generally accepted accounting principles for purposes of analyzing our liquidity. In addition, not all funds depicted by EBITDA, Adjusted EBITDA and Free Cash Flow are available for management's discretionary use. For example, a portion of such funds are subject to contractual restrictions and functional requirements to pay debt service, fund necessary capital expenditures and meet other commitments from time to time as described in more detail in the Company's 2014 Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 2, 2015. EBITDA, Adjusted EBITDA and Free Cash Flow, as calculated, may not be comparable to similarly titled measures reported by other companies.
